HISTORY

One of the hardships of the pioneers of western Virginia was the lack of schools for their children. In seeking to provide for this necessity, the Methodists founded an academy at Clarksburg in the first half of the last century. This prospered until sectional misunderstanding caused the school to close. During the years succeeding the war many efforts were made to secure a centrally-located institution of higher education, but it was not until 1890 that those efforts were realized.

In 1876 Buckhannon presented a request and a pledge of money to the West Virginia Conference to locate a seminary in the town, In 1883 a committee appointed by the Annual Conference recommended the establishment of a seminary, and a year later the Conference appointed a Board of Trustees for the proposed school. The Conference enlarged the Board of Trustees in 1885 and directed it to receive contributions and proposals for the endowment and location of a seminary, and on August 29, 1887, the trustees purchased forty-three acres at Buckhannon for $5,551.87. In October of the same year the Conference in session at Parkersburg ratified the action and directed the trustees to proceed with the erection of the buildings. The Main Building was completed during the summer of 1890 and school was opened September 3rd of that year. The Ladies' Hall was erected in 1895 and in 1902 the Music Hall was completed. About 1892 the president's residence was built.

On February 4, 1905, the Main Building was destroyed by fire. Steps were taken immediately to replace it and the following year College Hall was ready for occupancy. The same year the central heating plant was installed in a building erected for that purpose. The Gymnasium was erected in 1912, and Haymond Science Hall in 1913.

In June, 1916, the Trustees determined to launch a campaign for a half-million dollars for additional equipment and endowment. The movement received the hearty support of the Annual Con-

ference held in Wheeling the following September. The campaign was under the direction of the Jubilee Commission of the Board of Education of the Methodist Episcopal Church. It came to a victorious close on the sixth day of June, 1917, the full amount having been pledged. A loyal friend of the College then added a fifty thousand dollar pledge, not as a part of the Half-Million Fund, but as a special gift for the purpose of erecting a Library Building in honor of the Wesleyan men who enlisted in the great world war. The amount of this last pledge has since been increased to one hundred thousand dollars.

These funds bring the total assets of the institution almost up to one million dollars. A brief account of the new financial forward movement now under way will be found on page 110.

Beginning as a seminary, the institution in June, 1903, was raised to college grade. The last class in the seminary course was graduated in June, 1908. The standard of the college is that prescribed by the University Senate of the Methodist Episcopal Church. The policy of the college has been to make the work thorough and to give credit only to those students who meet the requirements that are common to the best colleges and universities.

While the college was founded by the Methodist Episcopal Church, and has received its principal support from that denomination, its non-sectarian spirit is emphasized by the composition of its board of trustees and faculty. Its charter places no denominational tests whatever on its officers, members of the faculty or students. It admits without question all students of good character who fulfill the scholastic requirements, and grants the same privileges to all, irrespective of their religious preferences.

The college from its beginning has insisted on the most thorough kind of intellectual culture. The leading universities of the nation welcome Wesleyan students who wish to do post-gradute work, and give such students full credit for courses taken here. The college has, at the same time, so matured and developed moral and spiritual qualities as to bring the students to the strongest kind of Christian manhood and womanhood. Nothing is more characteristic of Wesleyan than her insistence upon sound learning being joined to sterling Christian character.

The following are the names of those who have held the presidency of the institution, together with their respective terms of service:

Rev. B. W. Hutchinson, A. M., D. D., 1890-1898.
Prof. F. B. Trotter, A. M. (Acting President), 1898.
Rev. S. L. Boyers, D. D., 1898-1900.
Rev. John Wier, A. M., D. D., 1900-1907.
Rev. Carl G. Doney, Ph. D., LL. D., 1907-1915.
Prof. T. W. Haught, A. M. (Acting President), 1913-1914.
Rev. Wallace B. Fleming, D. D., Ph. D., 1915.

LOCATION

The college is located in Buckhannon, a town of four thousand inhabitants, situated within twenty-eight miles of the geographical center of the State. Natural gas, city water, free delivery of mail, electric lights, paved streets, local and long distance telephones add to the convenience and comforts of the residents. Buckhannon has a well-merited reputation for intelligence and morality. Neither the county nor the town of Buckhannon has ever licensed or permitted a saloon.

While Buckhannon has a number of prosperous manufacturing establishments, it is especially a city of homes. The college and the character of the citizenship of Buckhannon have attracted many residents who seek not only the immediate advantage of the school, but the privileges of a well-ordered and clean community in which to live. There are few places which combine so many elements of the ideal city — healthfulness, inexpensive living, city conveniences, low tax rate, good churches, high moral tone, first-class public schools, excellent neighbors, etc.

Buckhannon is on the Baltimore and Ohio Railroad, at the junction of the Pickens branch, with the line between Grafton and Weston. It is, therefore, easily accessible, either by way of Clarksburg and Weston or by way of Grafton. It is within six miles of the junction of the Coal and Coke Railroad with the Baltimore and Ohio at Sago, and is, therefore, accessible by way of Elkins or Charleston. Thus it will be seen that the college may be reached from any point in the State without great inconvenience.

MATERIAL EQUIPMENT

The physical equipment of the college is ample for the highest standard of work. The campus and athletic field are spacious. The buildings are modern and well furnished. The convenience, comfort and scholastic needs of teachers and students are constantly studied.

The Campus

The college grounds consist of forty-three acres, situated in the southeastern part of the town. The campus is all that could be desired — sufficiently rolling, large, and partially wooded with virgin and cultivated trees and shrubs. The elevation is about 1,400 feet above sea level, thus affording a climate which is healthful and tonic. The buildings are upon an elevation above the river and city, which provides perfect drainage and a sweeping view of the town and surrounding hills. The location is not equaled in West Virginia and is noteworthy for beauty and healthfulness.

The athletic field, situated to the east of the Gymnasium, has a baseball diamond, football gridiron and running track. Here the students have ample opportunity for open air exercises. Former students will remember this field as the scene of many a hotly contested athletic struggle.

College Hall

After the destruction by fire of the main building of the institution, in 1905, the present College Hall was erected. It is an imposing four-story edifice of brick and stone, 140 by 150 feet in size. It contains the offices of the President, Dean and Treasurer, halls for the literary societies, the Young Men's Christian Association, the Young Women's Christian Association, the library and reading room, and many class rooms. The large auditorium, seating 1,500 people, is also a part of College Hall. College Hall is modern in every particular. It is heated by steam, lighted by gas and electricity and is supplied with lavatories and cloak rooms. The class rooms are fitted with slate blackboards and opera school chairs. It represents a value of about $100,000 and is one of the finest college buildings in the State.

Woman's Hall

This building was erected in 1895. It is a four-story brick structure containing three parlors, a large dining room, modern kitchen, and rooms for seventy-five young women. Each floor is supplied with hot and cold water baths. Steam heat is supplied to every room. The building is finished in hardwood, lighted by gas and electricity and equipped with a modern passenger elevator. Recently the Women's Wesleyan College Club of Buckhannon, in connection with auxiliaries in various towns of the State, has largely refurnished and redecorated the hall. It is a comfortable, healthful and most desirable home for the young women students.

Haymond Science Hall

This notable building is a fitting memorial of the life of Mrs. Virginia Haymond who gave it, and of her husband, the late Col. Sidney Haymond, for years a trustee of the college. It is three stories in height, of pressed brick and Bedford stone, 100 by 130 feet in size. It provides extensive laboratories and class rooms for chemistry, physics, biology and related sciences. It also contains a laboratory, machine shop, manual training and draughting rooms. Mrs. Haymond provided the equipment, which is modern and sufficiently complete to make it an almost perfect college science building.

Music Hall

This is a three-story building, constructed of brick and stone, and erected in 1902. It contains four studios, a recital hall equipped with a new pipe organ, twenty practice rooms supplied with pianos of standard manufacture. Each room is well lighted, and heated by steam. It is devoted exclusively to the Department of Music.

Gymnasium

This is a three-story building of light brick, 110 by 115 feet in size, and was erected in 1912. On the ground floor are locker rooms for men and women, shower baths, a swimming pool, 20 by 50 feet, baseball cage, toilet and team rooms. The first floor has offices and the great play room, 70 by 90 feet, and on the upper floors are six rooms used by the Normal School. In December, 1915, the First Methodist Church of Clarksburg presented to the college a valuable

collection of gymnasium furnishings, in memory of Mr. Charles S. Smiley. These furnishings have been installed and add materially to the equipment. The building is excellent in every particular and is one of the finest college gymnasiums in this part of the United States.

Heating Plant

This was built in 1905 and contains the boilers, pumps and coal bins needful for heating the other buildings upon the campus. Its capacity has been nearly doubled by the addition of a new hundred horsepower boiler recently.

President's Residence

During the administration of Dr. Hutchinson a residence was erected by him on the campus. Later this was purchased by the trustees and it has since been used continuously for the president's home.

Library

The Library has well-lighted quarters on the second floor of College Hall. It now occupies three rooms and covers nearly two thousand square feet of floor space. Here are to be found 10,000 volumes, and about one hundred of the principal magazines and newspapers. A splendid library building is soon to be erected in honor of the Wesleyan men enlisted in the Great War.

Physical Laboratory

The Department of Physics is located in the Haymond Science Hall, recently completed. Three large rooms, together with adequate space for storage and sufficient apparatus for demonstration and experimental work, make up the physical equipment for this work.

Chemical Laboratory

The Department of Chemistry occupies two large laboratory rooms, a class room and storage room for chemicals and apparatus on the ground floor of the Science Hall. The laboratories afford facilities for fifty students at a time. There is sufficient locker room to accommodate one hundred students and that number can easily be cared for by dividing them into groups of fifty or fewer for laboratory practice. Other accessories of the department are a

scale room, foul gas hood, and water still. The laboratory is equipped with apparatus for general and analytical work, and a supply of chemicals for students' use.

Domestic Science

The equipment for instruction in Domestic Science is located in the two ground floor rooms at the south end of College Hall. It is complete throughout in all its appointments. This equipment will accommodate a class of twenty students, which is quite as many as can be successfully taught at one time in this subject.

PLAN OF WORK

Semesters. It will be noted that the work of the college has been readjusted on the semester plan. This is the plan now widely prevalent among the best colleges and universities. One of its chief advantages is that by dividing the school year into two equal semesters it permits the arranging of the work in courses of greater length. The college has delayed adopting the plan until recently, because of the difficulty of adjusting it so as to conserve the interests of students, especially teachers in rural schools, who are free to take up college work late in March. A plan having been devised to meet the needs of such students, the semester plan now has been adopted.

Summer Term. During the summer term no effort is made to provide instruction in all college subjects, but the instruction given is characterized by the usual Wesleyan thoroughness and is accepted in the regular way for credit toward graduation. On page 98 will be found a fuller statement about the Summer School.

COLLEGE OF LIBERAL ARTS

Admission

The academic requirements for admission to the college are expressed in units. A unit represents a study that has been pursued through a school year of at least thirty-six weeks, with not less than four periods of recitation of forty-five minutes or more each week. Fifteen units are required for admission.

Graduates of the academy connected with this college have fully met this standard for admission and are admitted to the College of Liberal Arts.

Graduates of approved high schools and academies are admitted upon presentation of certificates showing credit for fifteen or more units of work done. Blank forms for these certificates may be had by addressing the Dean of the College. The certificates, when submitted, must show in detail what studies have been pursued, the time employed and the grades obtained. They must be signed in each case by the principal of the school. All certificates should be presented at the time of registration.

Students who for any reason are unable to present satisfactory certificates of scholarship, may be admitted by examination. Those wishing to be admitted in this manner may consult the outline of courses for the Academy in order to secure an approximate idea of the ground covered by the entrance examination; detailed statement will be sent to those who apply to the Dean. These examinations are given on the opening day of the term. Arrangements for them should be made with the Dean in advance. No charge is made for such examinations if taken on the opening day.

All claims of credit for work previously done must be adjusted at the time of the student's matriculation.

Public school diplomas and teachers' certificates will not be accepted for entrance credit.

No student will be matriculated for non-resident work.

Testimonials of good moral character are expected of all who apply for admission.

Students coming from other colleges must present certificates of honorable dismissal from the schools from which they come, together with an official record of the college work which they have done. They will be granted such advanced standing as their records merit.

A student who gives satisfactory evidence of his preparation will be admitted to examination for advanced standing in the college. Such examinations are without fee, but they must be arranged for in advance with the Dean and must be taken on the day announced at the opening of the student's first semester's residence. One application of this statement is to solid geometry and any college subject done in high school in excess of the sixteen units required for high school graduation.

College Standing

No student can be admitted to college standing who is deficient in more than six semester hours' work. A student admitted to freshman rank will be enrolled as a freshman until he has removed all entrance conditions and completed at least twenty-four semester hours of college work; he will then be enrolled as a sophomore until he has completed fifty-six semester hours, including all requirements of the freshman year; he will then be enrolled as a junior until he has completed eighty-eight semester hours; and he will then be enrolled as a senior until he has completed one hundred and twenty-eight semester hours, which is the requirement for graduation.

A semester hour is one recitation or class per week for a half of the school year. The recitations are sixty minutes in length. Students usually carry work requiring sixteen recitations per week. This amounts to thirty-two semester hours in a year, or one hundred and twenty-eight semester hours in the four years.

Requirements for Graduation

BACHELOR'S DEGREE —

Candidates for either of the Baccalaureate degrees are required to complete one hundred and twenty-eight semester hours of collegiate work in the manner prescribed on pages 23 and 24.

Master's Degree —

The degree of Master of Arts will be conferred upon graduates of this college or of other approved institutions who shall have met the following requirements:

1. The candidate shall complete thirty semester hours of graduate work in residence.

2. He shall pursue a major course and not more than two minor courses of study, to be approved by the head of the department in which the major is taken.

3. He shall write a thesis, the subject, content and length of which shall be approved by the head of the department in which his major course is pursued. The thesis shall be presented not later than May 26th preceding graduation, and a duplicate bound, typewritten copy shall be presented to the Library.

4. He shall pay the regular tuition fees.

Fees and Expenses

Fees are due and payable at the opening of each semester or term, as follows:

> "All tuition charges less than $20.00 must be paid enrollment day; and of all accounts larger than that amount, at least $20.00 must be paid on enrollment day. and the remainder within 15 days."

Students will not be received in classes until these charges are paid.

TUITION AND COLLEGE FEES: The charges for tuition and college fees are as follows: For College, Academy, or Normal School, per semester, $40.00; Summer term, $15.00.

REGISTRATION: No registration fee is charged the student upon arranging his course of study at the beginning of a term, but a fee of $1.00 is charged for each change made after the first week.

ATHLETIC FEE, including admission to the varsity games, etc., per semester, $2.50. This fee is not subject to refund.

LABORATORY FEES for materials used in laboratory courses, paid only by students taking such courses as follows: Semester charge for each laboratory course in Biology, Botany, Zoology, Physiology, Geology, or Physics, $3.00; for each in Chemistry, see pages 28, 29; for each in Domestic Science, see pages 29, 30.

GRADUATION FEE. A diploma fee of $5.00 is charged all persons taking Master's or Baccalaureate degrees, all graduates of the Normal School, School of Music, School of Art, and School of Oratory. The fee for academy certificate of graduation is $3.00. These fees are due April 1st of the year of graduation.

WOMAN'S HALL. Board is supplied to young women at cost, and the young women are allowed through their own representatives to determine the elaborateness, and quality of board supplied. For the larger part of the year 1918-1919 board cost $5.25 per week. Board is payable monthly in advance.

The price of rooms varies from $1.00 to $1.50 per week depending upon the location. A deposit of $5.00 is required to reserve a place in the Woman's Hall. This amount will be held as a breakage fee. Five days after close of semester this fee, less any damage charged, will be returned. In event of the student's failure to claim the room thus reserved the deposit is forfeited. Room rent for the semester is payable in advance and is not subject to refund. A floor diagram with prices will be sent on application.

Special Students and Special Fees

Students carrying less than ten hours in the College, Academy or Normal School are rated as special students and are charged at the rate of $4.00 per semester hour for the courses carried.

Students in the College, Academy, or Normal School, who are allowed to take more than seventeen semester-hours of recitation will be charged $3.00 additional per semester-hour instruction.

Persons who present preachers license, members of conferences, synods, etc., and the sons and daughters of ministers of the Gospel are allowed a discount of $15.00 per semester on the regular tuition fees. The same discount is granted to students properly accredited as preparing for missionary life work.

In the departmental instruction outlined below, lessons missed on account of the instructor will be made up to the student. Lessons missed because of the absence of the student will not be made up,

except where the cause is extended illness, and in this case only those absences will be made up which have been preceded by notice to the instructor.

General Requirements for the Bachelor's Degree

English Composition (English 1) ..... 6 hours
Foreign Language .....24 or 32 "

(Note.—Thirty-two hours if the major is in one of the first six fields of study listed below, twenty-four if in one of the last five. This requirement may be reduced by eight semester hours for each unit of foreign language offered for entrance.)

History and Economics	6 hours
Bible, Philosophy or Education	6 "
Chemistry, Physics or Mathematics	8 "
Oratory (in freshman or sophomore year)	4 "
Physical Education in regularly scheduled classes	4 "

(NOTE.—Bible 1 is required of all students.)

For the freshman year the student should select most of his work from among the required courses above.

Each student shall select in his freshman or sophomore year a major and two minor fields of study.

The minimum requirement to complete a major shall be thirty semester hours; for a minor, twenty.

The majors and minors may be selected from among the following:

1. English.
2. Ancient Foreign Language.
3. Modern Language.
4. Social Sciences: History, Economics and Sociology.
5. Bible and Philosophy.
6. Education.
7. Physical Science: Chemistry, Physics, and Geology.
8. Biological Science: Botany, Zoology and Physiology.
9. Mathematics and Astronomy.
10. Agriculture.
11. Home Economics.

Candidates for the Bachelor of Arts degree may major in any of the above studies. Candidates for the Bachelor of Science degree may major in any of the last five studies.

Each student after having selected his major shall confer with the head of the department in which the major is chosen and secure approval of his schedule of work.

Less than one year of a foreign language will not be counted toward a degree.

No student can be graduated without having been in attendance at the college at least one year.

COURSES OF INSTRUCTION

In the College of Liberal Arts the following courses of study are offered:

Agriculture

ASSISTANT PROFESSOR HOSKINS

1. AGRICULTURE. GENERAL AGRICULTURE. *First Semester, four hours per week.* An introductory course, covering the field in a brief way. The subjects of soils, crops, animal industry and horticulture will be given such proportion of emphasis as each justifies. The course will be adapted to meet the needs, as far as possible, of teachers in the public schools of West Virginia. Laboratory, W., F., 2:00 o'clock.

2. AGRICULTURE. GENERAL AGRICULTURE. *Second Semester, four hours per week.* A continuation of Agriculture 1. Methods of instruction in agriculture in graded schools, club work and project work will be discussed in connection with the subject matter of Agriculture. Laboratory W., F., 2:00 o'clock.

3. AGRICULTURE. FIELD CROPS. *First Semester, three hours per week.* This course will present methods of culture, places in rotation, relation to soil fertility and botanical relationships of the common grain, forage and root crops of the State. Parallel or prerequisite, Botany 2. Laboratory, Thursday, 2:00 o'clock.

4. AGRICULTURE. SOIL FERTILITY. *Second Semester, three hours per week.* Conditions essential to plant growth, relations of soil to plant, plant food materials, water supply, tillage and drainage will be considered in this course. Lime and commercial fertilizers will be fully discussed and analyzed. Prerequisite, Chemistry 1 and 2. Laboratory Thursday, 2:00 o'clock.

Astronomy

(See Mathematics and Astronomy)

Bible

PROFESSOR ASPINALL AND PRESIDENT FLEMING

1. NEW TESTAMENT HISTORY. *Three hours per week, first semester.* A study of the beginnings of Christianity, The Life of Jesus; the environment and formation of the Early Church. Text-book, lectures, reading of selected books of the New Testament.

2. THE BIBLE AS LITERATURE. *Three hours per week, second semester.* A critical study of the literary structure of the Bible. The aim of this course is to incite a love for Bible reading and interpret the book in a more readable form. Text-book, lectures and collateral reading from the Bible.

3. OLD TESTAMENT HISTORY.* *Three hours per week, first semester.* In this course are studied the preparation for, and progress of, the Jewish race. The relation of the Hebrews to the other Semites will be carefully noted. The period between Malachi and John the Baptist will also be studied. Text-book, lectures and Bible reading.

4. THE SOCIAL INSTITUTIONS OF THE BIBLE.* *Three hours, second semester.* A genetic study of Hebrew society which affords the necessary background for a better understanding of the Prophets and of the Christ. A survey of the domestic, economic, political and religious institutions of the Hebrews. The social teachings of Jesus will also be emphasized. Text-book, lectures and reference reading from the Scriptures.

5. HISTORY OF RELIGIOUS EDUCATION.* *Two hours per week, second semester.* The aim of this course is to trace the development of religious institutions and methods. Religious education will be studied in its varied aspects with special attention given to modern tendencies in this field. Text-book, lectures, reports. (Offered in 1917-18 and alternate years.)

6. CHRISTIAN DOCTRINE.* *Two hours per week, throughout the year.* A study of the science of the Christian religion.

---

* Available for Master of Arts degree if taken under special direction toward that end.

Special emphasis will be given to the Atonement, Inspiration, New-Birth and Free-Will. Text-book, lectures and collateral reading. (Given in 1920-'21 and alternate years.)

7. HOMILETICS I. *Two hours, first semester.* A discussion of the preparation for preaching. Emphasis will be given to the structure of the sermon. Constant practice in the analysis of texts and the choice of themes. Text-book, lectures and sermon outlines by the student before the class. (Given in alternate years with Bible 6.)

8. HOMILETICS II. *Two hours, second semester.* A brief history of preaching. Methods and achievements of eminent preachers will be discussed. Sermons by the students with criticism from the class. Text-book, collateral reading and lectures. (Given in alternate years with Bible 6.)

Biology

ASSISTANT PROFESSOR HOSKINS

1. GENERAL BIOLOGY. *Four hours per week, first and second semesters.* Introduction to the general properties of living things, their functions, structures, habits and evolution. The laboratory work consists of a study of a series of animals and plants.

2. GENERAL BOTANY. *Four hours per week, second semester.* This course deals with the structure, methods of reproduction, and soil relation of the higher plants. The laboratory work will include some simple physiological experiments and the classification of the common spring flowers of the neighborhood. 1919 and alternate years. Prerequisites, Biology I or equivalent.

3. GENERAL ZOOLOGY. *Three hours per week, first semester.* The lectures and recitations cover the principal facts of animal structure, development and classification. Laboratory work is largely anatomical and deals with selected type animals from the important animal groups. Prerequisites, Biology I, or equivalent. 1918 and alternate years.

4. ANATOMY AND PHYSIOLOGY. *Three hours per week, second semester.* Assumes a knowledge of chemistry and elementary

physics. Mammalian anatomy and human physiology. Special attention to physiological chemistry. 1919 and alternate years.

5. BOTANY. *Two hours per week, first semester.* A study of algæ, fungi, liverworts, mosses and ferns. Morphology, development, reproduction and evolution of the groups emphasized. Lectures, recitations and laboratory exercises. Prerequisites, Biology 1 and 2. 1919 and alternate years.

6. BOTANY. *Two hours per week, second semester.* Lectures and laboratory exercises illustrating the morphology of gymnosperms and angiosperms. A systematic study of local flora with special attention to environment. Prerequisite, Biology 5. 1918 and alternate years.

Botany

(See Biology)

Chemistry

DEAN HAUGHT AND ASSISTANT PROFESSOR HYMA

1. GENERAL INORGANIC CHEMISTRY. *Five hours.* The course is a study of the non-metallic elements, of their physical and chemical properties, the laws governing the chemical behavior of elements and compounds, valence, the kinetic molecular hypothesis, the atomic hypothesis, solution, molecular and atomic weights. Chemical equilibrium, dissociation in solution, ionization. From the first students are drilled in the solution of the mathematical problems of chemistry.

The course comprises three hours per week recitation and two periods per week in the laboratory.

First Semester, 9:00. Laboratory M. F. 8:00-10:00. Laboratory fee, $6.00.

2. GENERAL INORGANIC CHEMISTRY. *Five hours.* A continuation of Chemistry 1. The course is a study of the metallic elements. The attention of the students is directed to several important industrial applications of chemistry. The solution of the mathematical problems of chemistry is continued.

Second Semester 9:00. Laboratory M. & F., 8:00-10:00. Laboratory fee, $6.00.

3. QUALITATIVE INORGANIC ANALYSIS. *Three hours.* A laboratory course with occasional lectures and conferences. This course is a study of acids, bases and salts and the methods of detecting their several characteristic radicals.

First Semester T., Th., S., 2:00-4:00 o'clock. Laboratory fee, $8.00.

4. QUANTITATIVE INORGANIC ANALYSIS. *Three hours.* A laboratory course with occasional lectures and conferences. This course is a study of the theory and the practice of the quantitative determination of pure chemicals, minerals and technical products. Courses 1, 2, and 3 are prerequisites.

Second Semester T., Th., S., 2:00-4:00 o'clock. Laboratory fee, $8.00.

5. ORGANIC CHEMISTRY.* *Two hours, first semester.* W., F., 2:00-4:00. This is a laboratory course with frequent lectures and conferences. In addition to chemical theory many important hydrocarbons and their derivatives are studied. Courses

6. ORGANIC CHEMISTRY.* *Two hours, second semester.* W., F., 2:00-4:00 o'clock. This course is a continuation of Chemistry 5. Laboratory fee, $5.00.

7. SPECIAL WORK.* For advanced students desiring it will be arranged, and credit will be given in proportion to the amount of work done.

Insofar as possible the department will offer electives to be chosen from Home Economics work.

Only those courses marked with a dagger (†) count toward a major in Home Economics. Thirty hours is the minimum requirement for a major.

Students in the normal course may elect a minimum of eight hours from the second year work to fulfill the State requirement for a teaching certificate. Should such a student then decide to major in Home Economics, the work elected will count toward a major.

FOODS AND NUTRITION

1. ELEMENTARY COOKERY. Introductory course. Throughout the year. *Credit two hours a semester.* Must be taken in sophomore year, and should be preceeded by Chemistry I and Biology I. Practice, W. F., 10.15-12.15. Laboratory fee, $6.00.

2. NUTRITION. Throughout the year. *Credit two or four hours a semester.* A course establishing the fundamental knowledge of foods, including composition and character of foodstuffs, sources and methods of manufacture, principles of selection, methods of preparation, preservation and comparative nutrition and economic values. Practical work in the planning and serving of meals. Prerequisites, Chemistry 1, 2, and 3, and Biology. Suggested parallel Physiology. Practice T., Th., 10.15-12.15. Lectures and discussions. W., F., 9.00. Laboratory fee, $8.00.

3. DIETETICS. *First semester, credit four hours.* Practical work in the principles of planning dietaries for the family and to develop a working knowledge of dietetics. Some time will be spent on dietaries for invalids and children. Prerequisites, Chemistry 1, 2 and 3, Physiology and Nutrition. Practice M., 9.00-11.00; W., F., 2.00-4.00. Lecture and recitation M., 11.00. Laboratory fee, $10.00.

HOUSEHOLD MANAGEMENT

4. HOUSEHOLD MANAGEMENT. *First semester, credit three hours.* Required of seniors in Home Economics. This course includes a study of source and division of the income, making of budgets cost of food, shelter and clothing, cost and care of equipment, standards of living, personal accounts. Prerequisite, Principles of Economics 1 and 2. Lectures and recitations, T., Th., S., 9.00.

CLOTHING TEXTILES

5. TEXTILES. *First semester, credit three hours.* This course includes a history of the processes of manufacture, spinning, wearing and finishing of cotton, silks, wool and linen, an analysis of weaves, a miscroscopic identification and chemical testing of fabrics, simple dyeing. Prerequisites, Chemistry 1 and 2. Lectures and recitations and single laboratory periods, T., Th., S., 9.00. Laboratory fee, $2.00.

6. TEXTILES AND CLOTHING. *Second semester, credit three hours.* A combination of course five, giving a practical application of theories of textiles. Hand and machine sewing, the use of commercial patterns, mending and simple embroidery. Three two-hour laboratory periods a week, hours to be arranged. Laboratory fee, $3.00.

7. DRESSMAKING. Throughout the year. *Credit three hours first semester, two hours second semester.* This course includes the designing and making of a simple afternoon dress in cotton, a silk blouse, a woolen skirt. Student provides all dress materials subject to the approval of the instructor. Prerequisites, Courses 5 and 6. Practice T., Th., 2.00-5.00. Laboratory fee, $3.00.

8. MILLINERY. *Second semester, credit two hours.* Registration limited to twenty students. This course deals with the construction of hat frames from buckram, willow, crinoline and wire, the use and renovation of old material, the study of color, shape and trimming. Students provide all hat material. Hours to be arranged. Laboratory fee, $4.00.

9. DESIGNING AND DRAFTING. *Second semester, credit two hours.* Given in place of Dressmaking 7, second semester, 1921 and alternate years. Takes up the drafting of simple patterns and the construction of garments from them, the designing and construction of a dress in cotton or silk. Prerequisites, Courses 5, 6 and 7 (first semester). Hours to be arranged. Laboratory fee, $3.00.

SANITATION

10. SANITATION AND HOUSEHOLD MECHANICS. *Second semester, credit three hours, 1921 and alternate years.* Hours to be arranged.

Economics and Sociology

PROFESSOR HELWIG

1. PRINCIPLES OF ECONOMICS. *Three hours, first semester.* A careful study is made of the fundamental principles of economics; nature of human wants, economic production and consumption; value and price, monopoly, business organization, money, credit and banking, the problem of distribution, rent, wages, labor problems, interest, profits, economic problems of transportation, insurance, agriculture, socialism, public finance.

SCIENCE HALL

2. PRINCIPLES OF ECONOMICS. *Three hours, second semester.* Study of the principles of economics will be continued with a practical application of them to some present day problems.

3. FINANCIAL HISTORY OF THE UNITED STATES. *Three hours, first semester.* Tariff and financial history of the United States. Special attention is given to the growth of public finance since the Civil War. 1921 and alternate years. Prerequisite, Economics 1, 2.

4. MONEY AND BANKING. *Three hours, second semester.* A study of the monetary principles and of the practical working of existing monetary systems of the different nations with special reference to the history of banking in the United States. Prerequisite, Economics 1, 2.

5. HISTORY OF ECONOMIC THOUGHT. *Three hours, first semester.* A study of the origin and development of the economic theories. 1920 and alternate years. Prerequisite, Economics 1, 2.

6. BUSINESS ORGANIZATION. *Two hours, first semester.* This course treats of modern forms of business organization; incorporation of companies, combinations, trusts, pools, holding companies, promotion, underwriting, manipulation, receivership, reorganization, over-capitalization.

7. INVESTMENTS. *Two hours, second semester.* A survey of various fields of investment including government and municipal bonds, securities of railway, industrial and mining corporations. This course deals with the various forms of bonds, mortgages and stocks with special reference to the different degrees of risk involved in investments. Reports of corporations will be analyzed with the object of determining the approximate values of their securities. General financial conditions will be studied with a view to an understanding of the stuation as an aid to the wise and conservative investment of funds.

8. INSURANCE. *Two hours, first semester.* A study of the principles of life and fire insurance. The course will include consideration of the nature of risk, theory of insurance, policies, reserves, premiums, surplus and dividends, selection of lives, investment of funds. Attention will be given also to the business of life and fire insurance. Prerequisite, Economics 1, 2.

9. LABOR PROBLEMS. *Two hours, secand semester.* The evolution of organized labor; policies of labor unions, woman and child labor, immigration, methods of industrial peace. Prerequisite, Economics 1, 2.

10. ECONOMIC HISTORY OF ENGLAND. *Two hours, first semester.* A survey of the periods of English industrial development. The early agricultural system; growth of manufactures; the guild and domestic systems; the factory system; the industrial revolution; growth of commerce; the mercantile system; England's present prospects in regard to world trade.

11. INDUSTRIAL HISTORY OF THE UNITED STATES. *Two hours, second semester.* A survey of industrial development through the colonial period to the present time. Early industry and commerce; settlement of Western lands; rise of important industries; tariff history; policy of the government with regard to public lands; growth of transportation facilities; economics of slavery, business corporations; expansion of commerce.

12. PANICS AND DEPRESSIONS. *Two hours, first semester.* This course is devoted to an examination of the financial depressions of the nineteenth century, together with a consideration of the theories advanced as to the causes of panics. A study is made of the industrial and financial conditions that precede such disturbances with the object of assisting the student to read the signs of the times with a fair degree of accuracy.

13. RAILROAD TRANSPORTATION. *Two hours, second semester.* A study of the American railroad system; the several branches of the service, railroad rates problems of operation, control of railroads, railroad finance.

Education

PROFESSOR MILLER, MISS DAVIS AND MISS DAMERON

The Certificate for Teaching in High Schools

Candidates for the certificate for teaching in high schools must meet the following minimum requirements:

1. Receive a degree from the College.

2. Earn 24 semester hours credit in education, 12 hours of which must be selected from the group, "Courses for College Juniors and Seniors," and done in the Junior and Senior years (except that students who have previously completed the Short Normal Course or the Standard Normal Course may meet the requirement with less than 12 semester hours of education in the Junior and Senior years).
3. Take 4 semester hours of education, in addition to practice teaching and observation, in the Senior year.
4. Earn 4 semester hours of credit in secondary education.
5. Receive credit for at least 15 semester hours in each subject which they are certified to teach.
6. Do practice teaching in the Junior High School 2 hours a week for 1 semester. This will be counted as 2 semester hours of education.
7. Observe under supervision, class-room teaching 2 hours a week for 1 semester. This will be counted as 1 semester hour of education.

7. CATULLUS, TIBULLUS AND PROPERTIUS. *Three hours per week, second semester.* Reading and study of characteristic passages of lyric and elegiac poetry.

8. TACTICUS AND SUETONIUS. *Two hours per week, first semester.* Study of life of one of the Roman Emperors.

9. JUVENAL AND MARTIAL. *Two hours per week, second semester. Satires* and selected *Epigrams.*

Mathematics and Astronomy

PROFESSOR WHITE

1. ADVANCED ALGEBRA. *Five hours per week, first semester.* A review of elementary algebra, progressions, binominal theorem, imaginary numbers, logarithms, determinants, and theory of equations. Open to students who have had high school algebra and geometry.

2. PLANE TRIGONOMETRY. *Three hours per week, second semester.* Trigonometric functions and their variations, circular measure, trigonometric analysis, inverse functions, solution of triangles. De Moivre's theorem. Prerequisites, Course 1. Rothrock's *Plane and Spherical Trigonometry.*

3. SOLID GEOMETRY. *Three hours per week, first semester.* The usual theorems and constructions of standard text-

books and applications to the mensuration of surfaces and solids. Open to all students who have had plane geometry.

4. ANALYTIC GEOMETRY. *Three hours per week, second semester.* Cartesian and polar co-ordinates, graphs of equations, transformation of co-ordinates, general equations of the straight line and conic sections. Prerequisites, Courses 1 and 2. Wilson and Tracey's *Analytical Geometry.*

5. CALCULUS. *Three hours per week, first semester.* Differentiation of standard forms, successive differentiation, differentials, rates, maxima and minima, points of infection, indeterminate forms. Prerequisites, Courses 1, 2 and 4. Granville's *Differential and Integral Calculus.*

6. CALCULUS. *Five hours per week, second semester.* Integration of standard forms, integration by parts and by substitution, integration as a summation, applications of integration, application of differentiation. Prerequisites, Courses 1, 2, 4 and 5. Granville's *Differential and Integral Calculus.*

7. DIFFERENTIAL EQUATIONS. *Two hours per week, throughout the year.* The theory and solution of the ordinary and partial differential equations. Prerequisites, Courses 5 and 6.

8. SOLUTION OF EQUATIONS. *Two hours per week, first semester.* Properties of a rational integral function, solutions by reductions, solutions by transformations, solutions by determinants, solution by approximating the root, solutions by series, solutions by continued fractions, solutions by orthogonnes, solutions by nomogrammes, solutions by trigonometry. Prerequisites, Courses 1, 2 and 4.

9. ANALYTIC MECHANICS. *Three hours per week, first semester.* The composition and resolution of forces, statics of a particle, roeces acting on a rigid body, vectors, the statics of a rigid body, center of gravity, friction, kinetics of a particle, and dynamics of rigid bodies. Prerequisites, Courses 5 and 6.

10. SOLID ANALYTIC GEOMETRY. *Three hours per week, second semester.* Analytic geometry of planes, lines, sphere and quadric surfaces. Prerequisites, Courses 1, 2 and 4.

11. MECHANICAL DRAWING. *Three hours, throughout*

WOMAN'S HALL

the year. Use of drawing instruments, geometric drawing, lettering, orthographic projection, isometric projection, blue printing. Open to all. Anthony's *Mechanical Drawing.*

12. DESCRIPTIVE GEOMETRY. *Five hours per week, first semester.* Representation of points, lines and planes; problems related to the right line and plane. Open to all. Anthony and Ashley's *Descriptive Geometry.*

13. TOPOGRAPHICAL DRAWING. *Two hours per week, second semester.* Preliminary operations, plotting, topographical symbols, roads and streets, embankments and cuts, drawing in color, representation of surface by profile and by contour lines; earthwork, volume from contour map, construction of contour map. Prerequisite, Course 10.

14. SURVEYING. *Three hours per week, throughout the year.* Chain surveying, compass surveying, transit surveying, use of stadia, plotting, computation, leveling, city surveying, railroad surveying. Prerequisite, Courses 1 and 2.

15. DESCRIPTIVE ASTRONOMY. *Three hours per week, first semester.* The doctrine of the sphere; astronomical instruments; descriptive geometry of the moon, sun, planets, satellites, comets, meteors, nebulæ, and fixed stars. Open to all. Young's *General Astronomy.*

16. PRACTICAL ASTRONOMY. *Two hours per week, second semester.* Corrections to astronomical observations; practical determination of time, latitude, longitude, and azimuth; reduction of sidereal time to mean solar time; reduction of mean solar time to sidereal time; use of the American ephemeris; central forces; methods of determining parallax. Prerequisites, Courses 1, 2 and 14.

Music

(See Department of Music)

Oratory

PROFESSOR HARDING

1. GENERAL ELOCUTION. *Two hours per week for a year.* Principles of vocalization and interpretation; history of oratory; parliamentary drill; extemporaneous work; debate, recitals, etc.

Physics

1. COLLEGE PHYSICS. *Five hours per week, first semester.* This course is an advanced study of the theory of physics and of physical formulæ with their application to the solution of numerous problems designed to test the student's ability.

The laboratory work required in this course is sufficient to meet the requirements of medical colleges for entrance.

Prerequisite, one year of academic or high school physics and plane trigonometry. (Offered in 1918-1919 and alternate years.)

2. COLLEGE PHYSICS. *Five hours per week, second semester.* A continuation of Course 1.

Physical Education for Men

PROFESSOR SHUMAKER

Regular and systematic exercise in the Gymnasium is required of all men, except such as are excused by the Faculty for reasons of physical disability.

1. GYMNASIUM PRACTICE. *Two hours per week, throughout the year.* Free-arm exercises and drills, emphasizing proper posture; exercises, with apparatus to correct deformities, to develop strength and endurance; lectures on anatomy, aid to the injured, stimulants, narcotics, personal and sexual hygiene, food, physical and mental economy.

2. FIELD PRACTICE. Substituted for Gymnasium Practice 1 on approval by the Director. Candidates for, and members of, the various athletic teams may take this course when outdoor work is advisable.

Physical Education for Women

MISS ARNETT

Believing that health is a prerequisite for efficiency and happiness and that this, together with increased strength, skill, grace, bodily control and improved posture, is acquired primarily through systematic exercise, Wesleyan College requires every woman student to have at least two years of physical education to be taken at the earliest possible opportunity. No one is excused except in the case of physical disability and through a physician's certificate, such certificates to be presented at the beginning of every semester that the disability continues. At the beginning of the year every young woman will have her physical measurements taken and a preliminary examination given, and if it is deemed necessary, she will be required to have a thorough examination by a physician. Advice as to special exercise and personal hygiene will be given at this time.

I. ELEMENTARY GYMNASTICS. *Two hour per week, throughout the year.*

1. First semester. Marching, Swedish freehand work, wands, dumb-bells, folk games and single group games. Special attention will be given to increasing lung capacity and improving the posture. Short talks on hygiene.

2. Second semester. More advanced marching, Swedish and folk games, Indian clubs, stall bars, chest weights, light mat work, games. Short talks on hygiene.

New work will be given each semester and students are expected to meet the requirements of regular attendance and proficiency.

II. ADVANCED GYMNASTICS. *Two hours per week throughout the year, one hour credit.* This course is open to those who have done one year of good work at Wesleyan or bring records of one year or more of work taken elsewhere and pass a test for accuracy and finish.

1. First semester. More complicated work with wands, dumb-bells, Swedish marching, folk plays, and games.

2. Second semester. Fancy marching, æsthetic movements, Indian clubs, Swedish and elementary heavy apparatus work on pose, brick and parallel bars, and jumping, etc. Those not equal to this work should repeat second semester first year's work. DEPARTMENT OF RURAL LEADERSHIP

PROFESSOR RAPKING

The Rural Department of the Board of Home Missions and Church Extension in co-operation with West Virginia Wesleyan College has established a Department of Rural Leadership in this College.

One of the greatest national problems is the "Rural Problem." Eighty per cent. of the leaders in all walks of life come from the country. With the exception of one, the members of President Wilson's cabinet were born in the open country or village. The migration to the city has depleted many rural communities of the right kind of leadership to meet the needs of modern rural life. Roosevelt said "Upon the development of country life rests ultimately our ability by methods of farming requiring the highest intelligence to continue to feed and clothe the hungry nations; to supply the city with fresh blood, clean bodies and clear brains that can endure the terrific strain of modern life; we need the development of men in the open country who will be in the future, as in the past, the stay and strength of the nation in time of war, and its guiding and controlling spirit in time of peace."

The purpose of this Department is to help meet this great need, by training ministers in the methods and principles that will equip them for leadership in the rural churches in the development of a community program for the purpose of Christianizing the economic, recreational, social, intellectual and home life of the entire community. To help answer the prayer "Thy kingdom come. Thy will be done on earth as in heaven."

By providing courses in Rural Sociology, Rural Economics, Rural Leadership and other subjects which will aid rural teachers in their special work and in addition equip them for leadership in community betterment.

By giving the youth of this College and the State a vision of the opportunities for service as leaders in meeting one of the world's greatest needs in the open country and small town as doctors, dentists, editors, teachers, merchants, ministers and farmers.

By creating sentiment in favor of the whole-hearted and loyal members of our churches and citizens of our nation who live in the small town or open country.

The following courses have been adopted by the Department of Rural Work of the Board of Home Missions and Church Extension and this College:

	Subject	*Semester*	*Hour*
1.	General Economics	2	6
2.	General Sociology	2	6
3.	Rural Economics	1	3
4.	Rural Sociology	1	3
5.	Rural Leadership	1	3
6.	Rural Clinic	2	4
7.	Religious Education	2	6
8.	Farm Practice (for city youth)	1	2
9.	History of Religion	2	6

THE ACADEMY

FACULTY

Wallace B. Fleming, Ph.D., Pres.
M. Mae Neptune, A. M., Prin.
Besse Dey Arnett, B. S.
Clara M. Smith
Edward Rowlands, A. B.
M. C. Miles, A. B.
Georgia G. Westfall
Paul Fleming
Iva Pearl Wilson, M. Acct., M. Sten.

The instruction in this Department is intended to prepare the student for college entrance and to afford a general training for the social and business world to those who are not able to complete a college course. Every reasonable advantage is given in the Academy to persons who have needs not met in the high schools near them, but who desire this preparation for their work. Those who wish to do special work are received in this Department at any time and are permitted to pursue such courses as they are prepared to take.

Students in this Department have every privilege accorded those in any other. Societies, organizations and public functions are open to all students alike.

ADMISSION

Students entering this Department should have successfully completed the common branches. Those who seek advanced standing should be prepared to take examinations on the subjects for which they desire credit, or present certificates of the work they have performed. Students from high schools of good standing and from normal schools will be given credit upon presenting proper certificates.

GRADUATION

The completion of the course in the Academy admits a student to the college. Those who are deficient in not more than six semester hours will be admitted to Freshman rank, but will be required to make up the work during the year. All persons who complete

the work of the Academy will receive a special certificate at the annual commencement. No student who is deficient in any subject will be graduated from the Academy; but he may receive the certificate, after completing the work, at a subsequent annual commencement.

The fees and expenses of the Academy are the same as those for the College of Liberal Arts. A statement of these is found on page 20.

Fifteen units are required to complete the Academic Course. This must include two majors of three units each and one minor of two units, and one of the majors must be English.

A unit represents a year's work in any subject, four periods per week, length of period, sixty minutes.

Two units of mathematics, two of foreign language, and one of history are required in the Academy.

COURSES OF INSTRUCTION

Bible

A. LIFE OF CHRIST. *Two hours per week, first semester.* An elementary study of the life of the Christ. The aim of this course is to familiarize the student with the teachings of Jesus. The method is scientific and modern, yet strictly evangelical in spirit and viewpoint. The object is the nurture of Christian character.

Text-book and lectures.

B. HEROES OF THE BIBLE. *Two hours per week, second semester.* An outline study of the *Heroes of the Faith* as presented in the Scriptures. The object of this course is to encourage a love for Biblical biography.

Bookkeeping

In this subject the following courses are offered. In each course, in addition to the four hours recitation, four hours of practice under supervision are required.

A. THEORY. *Four hours per week, first semester.* A thorough drill in the fundamental principles of bookkeeping. The introduction of simple accounts and commercial papers.

B. PARTNERSHIP AND CORPORATIONS. *Four hours per week, second semester.* Office Routine, Branch Office. Corporations introduced. Single and double entry compared. Commission Business, manufacturing introduced.

English

PROFESSOR NEPTUNE

A. COMPOSITION, LITERATURE AND ELEMENTARY RHETORIC. Aim of the course, easy, natural, correct self-expression. Practical use of grammar and punctuation in all composition and in all reading insisted upon. Literature for class study chosen from classic and legendary prose; such as *Old Testament Stories, The Arabian Nights, King Arthur and His Knights, The Odyssey,* and narrative poems from American authors. Collateral reading. The instructor holds personal conferences with the individual students.

Four hours through the year.

B. COMPOSITION, LITERATURE AND RHETORIC. Emphasis placed on narrative and descriptive writing with a brief period on exposition. The literature used for class study is chosen for literary values and serves also as models in the kind of writing under consideration. *The Sketch Book, Selected Short Stories, Silas Marner,* and other classics are studied. Collateral reading. Grammar, punctuation and the cultivation of a natural style receive attention in personal conferences.

Four hours through the year.

C. COMPOSITION, LITERATURE AND RHETORIC. Emphasis placed on expository writing and debate. Special attention given to collecting, organizing, and amplifying ideas from the student's field of interests, and to the building of single and related paragraphs. Many themes are given orally before the student attempts to express them in writing. The classics studied include Carlyle's *Essay on Burns; The Merchan of Venice,* and Tennyson's *Idylls of the King.* Collateral reading — books and magazines. Logical analysis, choice of words, and clearness of expression emphasized in personal conferences.

Four hours through the year.

D. ENGLISH AND AMERICAN LITERATURE AND COMPOSITION. Through the use of collections the student gains a rather wide acquaintance with both English and American litera-

ture. Enough time is given to the authors and to the periods to see that the literature of a people is an expression of their life and progress. Attention is given to types of poetry, epic, lyric, drama, ballad, ode, elegy, and sonnet,—and to versification. Collateral reading — books and magazines. Composition given less attention than in Courses A, B, and C.

Four hours through the year.

French

1. ELEMENTARY FRENCH. *Four hours per week, first and second semesters.* Ballard's *Beginners' French.* Easy short stories or other easy text, sight-reading, conversation, pronunciation.

2. PROSE COMPOSITION AND IRREGULAR VERBS. *Four hours per week, first and second semesters.* Study of Grammar continued. Authors such as Daudet, Haulevey, Hugo, Dumas, and Merimee read. Verb drill, composition, papers on works read or on other given subjects, sight-reading, conversation.

German

1. ELEMENTARY GERMAN, SHORT STORIES. *Four hours per week, first and second semesters.* Allen and Phillipson's *A First German Grammar,* some reader, short selections, sight-reading, dictation, conversation.

2. PROSE AND POETRY, GRAMMAR, COMPOSITION. *Four hours per week, first and second semesters.* Review of Grammar; Moscher, *Willkommen in Deutschland;* Schiller, *die Jungfrau von Orleans, die braut von Messina,* and others. Reading and memorizing of songs and poems, sight-reading, composition, conversation.

History

A. 1. ANCIENT HISTORY, INCLUDING GRECIAN AND ROMAN. *Four hours per week, first semester.*

2. MEDIÆVAL AND MODERN HISTORY. *Four hours per week, second semester.*

B. ENGLISH HISTORY. *Four hours per week, first and second semesters.*

C. AMERICAN HISTORY AND CIVICS. *Four hours per week, first and second semesters.* The course considers the salient facts of our country's development, showing the results of various social, political and religious movements; in Civics the fundamental facts and principles of our government. A detailed study of the United States Constitution, state and municipal affairs, and other forms of government.

Home Economics

A. FOOD PREPARATION. *Two hours, first semester.* An introduction to the study of foods and food preparation. Practical lessons in canning and preserving of fruits. Study of vegetables, milk, cheese and eggs. Laboratory fee, $6.00.

B. FOOD PREPARATION. *Two hours, second semester.* A study of meats, soups, gelatine, salads, doughs, and batters. Laboratory fee, $6.00.

C. SEWING. *Two hours, first semester.* The aim of this course is the study of fabrics, the proper selection of material and the working out of suitable designs in garments. Laboratory fee, $2.00.

D. SEWING. *Two hours, second semesters.* A continuation of course C. Laboratory fee, $2.00.

Latin

A. FIRST YEAR LATIN. *Four hours per week, first and second semesters.*

B. CÆSAR'S GALLIC WARS. *Four hours per week, first and second semesters.* Latin Prose Composition.

C. CICERO. *Four hours per week, first and second semesters.* Six orations completed; prose composition.

D. VIRGIL'S ÆNEID. *Four hours per week, first and second semesters.* Six books completed; scansion and mythology.

Mathematics

1. ALGEBRA. *Four hours per week, first and second semesters.* The four fundamental operations of algebra, parenthesis, simple division, factoring. Solution of equations by factoring, highest common factor, lowest common multiple. Fractions, fractional equations, literal equations, simultaneous linear equations, graphs. Theory of exponents, surds, irrational equations, quadratic equations, graphs of quadratic equations, ratio and proportion.

2. PLANE GEOMETRY. *Four hours per week, first and second semesters.* Rectilinear figures, the circle, proportion, similar polygons, areas of polygons, regular polygons, measurement of the circle, and loci. Original work is particularly emphasized.

3. COMMERCIAL ARITHMETIC. *Four hours per week, second semester.* This is an elective course in the Academy designed for students taking the short normal course.

A thorough review of notation and numeration, addition, subtraction, multiplication and division, with a view to securing a high degree of accuracy. Addition of two columns at once is taught.

A careful review of fractions with a view of securing a thorough understanding and a high proficiency in the use of simple fractions.

The subjects of decimals, percentage and its applications, measurements, etc., are covered with reference only to such forms and processes as are in actual use at present in modern business and commerce. In interest and other applications of percentage, students are required to draw up notes, drafts, checks and other current forms and base problems upon these. Problems relating to local industries and conditions are utilized in stimulating interest and making the work more valuable.

Natural Science

GENERAL SCIENCE. *Four hours per week, first and second semesters.* This course is designed as an introduction to the further study of such sciences as, Biology, Botany, Chemistry and Physics. The work consists of recitations, laboratory and field work. A properly kept note-book is required.

AGRICULTURE. *Four hours per week, first and second semester.* This is a general course covering the main topics of agriculture such as soil, fertilizers, farm crops, horticulture, animal husbandry, vegetable gardening, seed testing and rural sociology. Laboratory, class room and field work.

ELEMENTARY CHEMISTRY. *Four hours per week, first and second semesters.* This course gives the fundamental principles and typical phenomena of Chemistry. It meets the needs of students electing Chemistry in the Normal School or preparing to take it in the college. Two recitations and two laboratory periods a week and a complete, neatly prepared note-book are required. Offered any year that there is sufficient demand.

ELEMENTARY PHYSICS. *Four hours per week, first and second semesters.* This course comprises a study of common physical phenomena, such as, properties of matter, mechanics of liquids and solids, sound, heat, magnetism, electricity and light. The student is required to perform about forty experiments and to make proper records of his work. 1920 and alternate years.

ELEMENTARY BIOLOGY. *Four hours per week, first and second semesters.* This course traces the common functions of reproduction, nutrition, and assimilation in plants and animals. Adaptation to environment; protective coloration and similar topics are also included. Recitations, laboratory and field work with note-book. Offered 1921.

BOTANY. *Four hours per week, second semester.* This course follows the one in Elementary Biology. It traces the development of plants from the simple algae of one cell to the complex forms of higher plants. Emphasis is placed on adaptation to environment and economic features of the subject. Field trips will be a prominent feature in spring. Offered 1921.

MANUAL TRAINING. This is an elective course for Academy and Normal School students. It includes lessons on the care of tools, filling, staining and varnishing, the repair of furniture and the making of tables, bookcases and other useful articles.

Shorthand

A. SHORTHAND. *Four hours per week, first semester.* Gregg Shorthand Manual. Drills in Shorthand Penmanship. Progressive Exercises. Supplementary reading and dictation work from the Gregg Writer.

B. SHORTHAND. *Four hours per week, second semester.* Completing the Gregg Manual. Gregg Speed Practice Manual. Reading and transcribing of two small books. Speed dictation on unfamiliar matter. The use of the dictating machine.

Typewriting

A. TYPEWRITING. *Four hours per week, first semester.* Four hours practice per week required. Touch method. Proper fingering and mastery of the keyboard. Care and mechanism of machine.

B. TYPEWRITING. *Four hours per week, second semester.* Four hours' practice per week required. Speed practice and dictation. Business forms, Manifolding, tabulating, etc.

THE NORMAL SCHOOL

Wallace B. Fleming, Ph. D., President.

Geo. F. Miller, Principal and Professor of Education.

Tempe H. Dameron, Special Methods, Supervisor of Training School, Critic Teacher for Third and Fourth Grades.

Lida L. Davis, Instructor in Education, Critic Teacher for Junior High School.

Blanche Frum, Critic Teacher for Fifth and Sixth Grades.

ADVANTAGES OF THE DEPARTMENT

The courses of this department are intended to afford students such a knowledge of the science and art of education as will qualify them for successful teaching. A training school giving instruction in the grades is in daily session at the College, under the supervision of competent training teachers. Here all students are required to teach. Also observations are made in the various rooms of the excellent public schools of Buckhannon. Normal students are especially advantaged in taking their studies in a college; they are instructed by college teachers, have the full equipment of the college for their use, live in an atmosphere of culture, have the privileges of the library, lectures, concerts, various societies, and athletics. Many persons move to a college town simply to enjoy the public privileges of the college; much greater are the advantages of those who are members of the college.

REQUIREMENTS FOR ENTRANCE

Students are admitted to the Standard Normal Course when they have completed sixteen units of academic work, and to the Short Course when they have completed twelve units of work. The academic work may be done in any accredited high school or academy. Those who are not convenient to a high school may pursue their studies here in the Academy and thus meet the entrance requirements. No student should do any of the professional subjects until he has completed the required preparatory work.

THE STANDARD NORMAL COURSE

The requirements of the State Board of Education are taken as the standard for graduation. The statement is printed below. Prospective students are urged to study these requirements carefully and to take in their high school work the subjects that are prescribed. *Special attention is called to the fact that no foreign language is required, nor is any mathematics, and that only three units in the preparatory and the normal courses combined may be counted in either of these subjects.*

A minimum of 16 high school units and 64 semester hours of normal school credit will be required for certification.

(Unit as used in this statement means the study of a subject for 36 weeks, 5 periods a week, with a minimum of 40 minutes to the period. 'Semester hour' as used in this statement means the study of a subject for 18 weeks, one period a week, 55 minutes for each recitation, together with the necessary preparation for the recitation.)

High School Work: Each candidate must present 16 units of high school work in either a classified high school or in the preparatory department of a school whose work is approved by the State Board of Education. These 16 units are to be done at the rate of 4 units a year for 4 years.

The State Board of Education does not prescribe the subjects to be taken in the High School course; but if a student does not have credit for the following subjects from the High School course, he must obtain the credits in the Normal School department:

United States History and Civics	1 unit
Agriculture	1 "
Music and Drawing	1 "
Home Economics (for girls)	1 "
Manual Training (for boys)	1 "

Normal School Work: Each candidate must present 64 semester hours of Normal School work—*i. e.,* work taken in a school of higher rank than a high school, whose work is approved by the

State Board of Education. These 64 semester hours are to be done at the rate of 32 semester hours a year. This normal school work consists of two kinds — professional, and academic, of which at least 32 semester hours must be professional.

The 32 hours of professional work are to be made up as follows:

(a) Required subjects:

1.	Applied Psychology	3	Sem. hours
2.	Philosophy or Principles of Education	3	" "
3.	General Method	2	" "
4.	School Hygiene	2	" "
5.	Class Room Management	2	" "
6.	Special Method	4	" "
7.	Observation and Practice Teaching	2	" "

(b) Elective, other professional subjects, 14 semester hours. This meets the requirements of the State Board of Education.

The sequence of the studies, outlined above for students enrolled in the Standard Normal Course, has been planned as follows:

FIRST YEAR

(A) Required Subjects:	Semester Hours	
(1) Professional	1st. Sem.	2d Sem.

GENERAL REGULATIONS

Special Note: The director of the Normal School Department must see to it that the candidates presented by him have done their high school work at the rate of four units a year for four years and that the work in Normal Department is done at the rate of 32 semester hours a year for two years. The State Board of Education will require a strict observance of this regulation.

The Director of the Normal School Department should not recommend for certification any candidate who does not comply fully with all the requirements and regulations herein set forth.

The class grade obtained in each subject will hereafter be required on the candidate's sheet.

The standard hitherto prescribed by the Board for elementary school subjects will continue, viz.: "The candidates should have grades of not less than 85 per cent. in each of the elementary school subjects. The grades may be secured by the elementary school

diploma issued by the Department of Schools, or by actual class work in the secondary school or by actual examination given in the school presenting the candidates."

THE SHORT COURSE

Required Subjects

GROUP I

(Academic Subjects)

English	3	units
History, Modern European since 1700 (including contemporary civilization)	1	unit
History, United States since 1700 (including current events)	1	unit
Agriculture	1	unit
Home Economics, for girls	1	unit
Industrial Arts, for boys	1	unit
Drawing and Music	1	unit

Total	10	units

GROUP II

EDUCATION SUBJECTS

Principles of Education	½	unit
Principles of Learning and Teaching	1	unit
*Directed Teaching	½	unit
School Room Management	½	unit
Total	2½	units

* The training teachers will test, in lesson planning for observation and practice teaching, the candidate's knowledge of the common school subjects. In all cases where the candidate does not measure up to 85 per cent., he must raise the subject to this standard by special study followed by an examination.

Elective Subjects

Three and one-half units must be elected from the following list of subjects:

English	1 unit
Botany	1 unit
Entomology	1 unit
Horticulture	1 unit
Home Economics	1 unit
Industrial Arts	1 unit
Vocational Guidance	1 unit
Chemistry	1 unit
Physics	1 unit
School Gardening	½ unit
Poultry Raising	½ unit
Commercial Geography	½ unit
Americanization and Citizenship	½ unit
Conservation and Production	½ to 1 unit
Current Events	½ to 1 unit

NORMAL SCHOOL COURSES

PRACTICE TEACHING. Each student is required to do ninety hours of teaching in the model school. The teacher is here given an opportunity to convert his theory into practice. Lesson plans are made and submitted to the critic teachers for approval. The teaching is done in the presence of the critic teacher and then in conferences suggestions are given to help the student overcome weak points.

OBSERVATION WORK. Each student is required to do twenty-five hours of observation work in the public schools of Buckhannon or in the model school. This work will be directed by the critic teacher in charge of the student's practice teaching.

RURAL SOCIOLOGY. *Four hours, first semester.* Topics: The farm problem and its solution, the farm home, the country church, the Grange and other farmers' organizations, farmers' institutes, corn and canning clubs, roads and the road problem, the country school, consolidated country schools, the leadership of the country teacher, the country life movement, changes in rural life and readjustments needed. Required in the short course.

NORMAL DRAWING. *Four hours practice for the year* The aim of the course is to develop the ability to draw and sketch freely for purposes of illustration. Considerable attention will be given to the method of teaching drawing in the public schools. One-half unit of credit will be allowed in either the Standard Normal or the Short Course. Required in both.

NORMAL MUSIC. *Four hours class work for the year.* A course in sight-reading and methods of instruction preparing the student to teach music in the public schools. One-half unit of credit allowed in either the Standard Normal or the Short Course. Required in both.

NOTE.—Other professional courses that are required and elective will be found under "Education" in the College of Liberal Arts.

BRIEF ENGINEERING COURSE

Instruction in this course is intended to prepare the student for practical work in surveying, embracing land and railroad surveying, blue-printing and mechanical drawing. Students are admitted to this course whose preparation enables them successfully to pursue the studies prescribed. This will require a knowledge of all courses in mathematics and physics given in the Academy and the English necessary for admission to the freshman year in College.

Upon the completion of the course the student will be given a certificate.

First Year

First Semester—College Algebra 1; Chemistry 1; Modern Language; English 1; Mechanical Drawing 10.

Second Semester—Trigonometry 2; Analytic Geometry 4; Chemistry 1; English 1; Modern Language; Mechanical Drawing 10.

Second Year

First Semester—Calculus 5; Modern Language; Surveying 13; Descriptive Geometry 11; Physics 1; Bible 1.

Second Semester—Calculus 6; Modern Language; Surveying 13; Topographical Drawing 12; Physics 1; Bible 2.

CONSERVATORY OF MUSIC

FACULTY

Wallace B. Fleming, Ph. D., President.

George S. Bohanan, Mus. Doc., Director. Professor in Piano, Harmony, Theory, Counterpoint, Pipe Organ.

Franklin E. Muzzy, Professor in Voice.

Charles Ralph Spaulding, Professor in Violin and other Stringed Instruments.

Irene Bohanan, Instructor in Piano, Normal Music.

Anna Dell Quimby, Instructor in Violin.

EQUIPMENT

The Conservatory building is a modern three-story brick structure with four large studios furnished with Chickering Concert Grand Pianos, and twenty practice rooms furnished with new Haines Brothers' Pianos and other first class instruments.

The College has installed a large new pipe organ in the Conservatory within the past year. This organ is two-manual, with seven hundred and thirty pipes, electric motor and complete electric action throughout. It is built in such a way as to enable the student to study the inside action and secure a working knowledge of its parts. This organ is built to conform with the American Guild of Organists' requirements, and is standard in every way. The Conservatory has also the two-manual reed pedal organ with electric blower, which is available for those who wish to practice more than the regular amount.

The Conservatory building is heated by steam and kept in first class condition for the use of all its students.

The close relation of the College of Liberal Arts affords an opportunity for studying the allied subjects in literature, science and language. At the same time, students in music have the cultural value of college life — participation in the numerous student organizations and the advantages of lectures, concerts, the daily convocation, etc. Students may thus secure a well proportioned and symmetrical education while obtaining their technical musical skill.

Students receive the personal attention and instruction necessary to develop each individual. To accomplish this, the student needs not only the best efforts of careful instructors and faithful work on his part, but he must have the opportunity of hearing the finest productions and of participating in ensemble music. The highest results depend upon the adaptation of instruction to the individual needs of the student; and this cannot be attained in classes.

COURSES OF INSTRUCTION

There have been arranged six courses which are open to music students after they have finished a preliminary course, starting at the very beginning. Three of these courses are in piano, one in voice, one in violin and one in pipe organ.

PIANO

The piano instruction leads to the degree of bachelor of Music, which can be had only upon the completion of Course Three for Piano.

Course One is designed for those who cannot spend the time necessary for fuller instruction, for those who wish to complete either the Vocal Course or the Violin Course, or for those who wish to begin teaching. While complete in itself, it is not as extended as most students desire. The time required will vary from two to three years.

Course Two has been designed for those who desire better teaching qualifications combined with ability for concert playing. It will require much more study and preparation than Course One, more public work and closer application to work.

Course Three has been designed for advanced students who are candidates for the degree of B. Mus. It can only be taken after Course One and Course Two have been completed satisfactorily.

Course One

Bach, Easy Pieces, Short Preludes and Fugues, etc.
Concone, Studies from Op. 24, Op. 25, and Op. 30.
Clementi, Sonatinas, Op. 36, Op. 37, and Op. 38.
Kuhlau, Sonatinas.
Mozart, Sonatas.

Haydn, Sonatas.
Heller, Etudes selected from Op. 47, Op. 45, Op. 46, and Op. 16.
Czerny, Studies from Op. 636, Op. 299, and Op. 740.
Duvernoy, Studies, Op. 120.
Mendelssohn, Songs Without Words.
Reinhold, Suite Mignone.
Scarlatti, Piano Pieces.
Technical studies according to the needs of the student.
Scales at a speed of 100 to 400 notes per minute in all single form.
Harmony One.
Theory One.
Recital pieces from modern composers selected and memorized and played in public throughout the course.

Course Two

Bach, Inventions in two and three voices, Preludes and Fugues, French Suites, and Italian Concerto.
Beethoven, Sonatas selected up to Op. 53.
Cramer, Etudes.
Clementi, Gradus ad Parnassum.
Mozart, Piano Pieces and one Concerto.
Chopin, Compositions selected.
Schumann, Etudes and other compositions.
Harmony, Two.
Theory, Two.
Technical studies according to the needs of the student.
Scales and Arpeggios in single forms up to 800 notes per minute.
Scales in double notes up to 400 notes per minute.
Recital pieces from the modern Russian, French and American Composers.
Normal Music, two semesters.

Course Three

Bach, Preludes and Fugues, English Suites and other works.
Beethoven, Sonatas selected from the last or Third Period.
Chopin, Ballads, Sonatas, Etudes and some of the greater Nocturnes.
Liszt, Etudes and other selected compositions.

CONSERVATORY *of* MUSIC

Schumann, such works as Op. 9, Op. 12, Op. 21 and others.
Debussy, Preludes, Etudes, Images, Estampes, Children's Corner.
MacDowell, Sonatas, Etudes and other compositions.
Ravel, Sonatine, and others.
Juon, Satyr and Nymphs, Op. 12, Intimate Harmonies, Op. 30, Preludes Op. 26.
Technical studies according to the needs of students.
Counterpoint —
Scales in all forms, major and minor.
Czerny Studies, Op. 365.
Joseffy School of Advanced Piano Playing.

VOCAL COURSE

The aim of the Vocal Department is to develop the voice along natural lines, gradually taking away wrong effort until good breath control, flexibility and freedom of voice is attained.

While the fundamental principles of voice-production is the same in all cases, each pupil requires individual treatment.

Voices are classified and developed according to their quality, power and range.

Strong emphasis is laid upon good diction.

This course ordinarily requires four years for completion. Unusual natural ability may shorten the course somewhat.

Two lessons per week are advisable. The study of modern languages is commended.

Course I

Elementary exercises to establish correct poise of voice and vocalizes and songs are given according to the needs of the pupil.

Vaccai
Sieber's eight measure vocalizes
Cucone Opus 9 and 10
Gallozzi old Italian vocalizes
Marchesi
Harmony I

Course II

Advanced studies in vocalization.
Marzo's The Art of vocalization.
Panofka.
Bordogui.
A beginning is made in classical song literature.
Schubert and Fianz together with the standard American, English and French songs.
Harmony II.
History of Music. Diploma.

Course III

Oratorio and Operatic Aria's
Musical Embellishments.
Schumann.
Brahms.
Modern French, English and American Songs.
Theory I.

REQUIREMENTS FOR GRADUATION

The student is required to give an intelligent rendering of an Oratorio and Operatic Arias. Also to present a recital program of ancient, classical and modern songs.

A diploma is given.

A certificate of proficiency is also given to those satisfactorily finishing Course I.

THE VIOLIN COURSE

The Violin Course consists of two parallel branches taken simultaneously as in the requirements for the Pianoforte, including a systematic and progressive training from the beginning to a finished playing of standard concertos and works by Bach, Beethoven, Wieniawski, Mendelssohn, Vieuxtemps, Bruch and others. The technical methods of Sevick are used mainly to cover the mechanical side, while the classical methods of Joachim are used for interpretation. Without a sufficient amount of technic even the greatest genius could not express himself freely.

A student before entering the course of the Conservatory outlined below must complete a preparatory course which includes a working knowledge of the first four positions. The time required for this varies according to the individual; it is usually about two years.

All violin students as soon as they become efficient are required to attend the Orchestra Rehearsals unless especially excused.

Every violin student is required to give a recital accompanied by the orchestra during his senior year.

Students having completed the Fourth Course listed below and having satisfied the general requirements of the Conservatory are graduated with a diploma.

Students having completed two of the advanced courses listed below and having satisfied the general requirements of the Conservatory are graduated with the degree of Bachelor of Music in Violin.

First Course

Scale studies by Egbert; Scales and arpeggi in two octaves.

Schools and Studies by Sevick, Ries, Dont, Kayser, Alard, Dancla, Leonard, Sitt.

Solos by Carse, Helm, Gabrielli and others of similar grade.

Second Course

Scale studies by Egbert; Scales and arpeggi in three octaves.
Studies by Sevick, Op. 1.
Studies by Fiorillo, Kreutzer, Sevick.
Solos and concertos by de Beriot, Viotti, Bach A minor.
Sonatas by Handel, Mozart and Corelli.

Third Course

Technical studies by Sevick.
Scale studies by Egbert.
Scales and arpeggi in three octaves.
Bowing technic by Sevick.
Studies and Etudes by Fiorillo, Dancla, Allard and Mazas.
Solos and concertos by Beethoven, de Beriot, Wieniawski, Mozart.

Fourth Course

Scales in thirds, sixths and octaves.
Studies and Etudes by Rode, Dancla and Rovelli.
Technical studies by Sevick.
Concertos by Bruch, Vieuxtemps, Wieniawski and Mendelssohn.
Solos by St. Saen, Sarasate, Vieutemps, etc.
Solos with orchestral accompaniment.

Advanced Courses

Selections from the following will be made to meet the needs of the student.

Scales in octaves and thirds.
Studies by Sevick.
Etudes and Caprices by Gaviniee, Dancla, Allard.
Solos and concertos by Mendelssohn, Lale, Hubay.

PIPE ORGAN

The work begins with the use of the feet on the pedals, the position of the body and hands. Manual work is given to those who are not prepared sufficiently by piano study. The explanation of the stops, their quality and variety in tone color, and how to use them is carefully given. In two semesters the student should be prepared to take active work in church playing. The full course will require two years. The study of Harmony is required and Counterpoint is strongly urged. One should have completed Course One in Piano with Harmony Two and Theory Two. This prepares a student to be a teacher as well as church organist. The student should have only one hour per day practice at the organ, the rest of the practice should be done at the piano, or upon the silent keyboard.

Pipe Organ Course

Clemens, *Modern School for the Organ.*
Whiting, *The Beginner's Pipe Organ Book.*
Whiting, *Progressive Studies for Pipe Organ.*

Counterpoint

A study of the formation of Melodies, the art of combining two or more melodies, two, three and four notes to the beat, syncopation and modulation. Motive development, imitation, three part harmony, contrapuntal harmony, three part counterpoint, four part harmony, four part counterpoint, motive development, the invention, etc.

Text: Goetschius, *Counterpoint.*

Two semesters, two hours.

Normal Music

A study of key signatures, scales, intervals and all the characters used to represent them. A course in sight-reading and methods of instruction preparing the student to teach music in the public schools. This course meets the State requirements and continues throughout the year.

Two semesters, four hours.

Public School Music

This course is the same as given in Normal Music Course, with the addition of Theory One, Harmony One, Course One in Piano, and at least two years of work in vocal culture.

Recitals

Public recitals are given each month of the school year and all music students are required to attend. Those who are prepared and able to do so are required to perform at each recital, or as often as may seem necessary. Private studio recitals may be given for those who are unable to appear in formal public recital. All work is required to be memorized and to be given in as artistic a manner as possible. These recitals are free to the public and are held in the College Auditorium.

Members of the Music Faculty give recitals during the year, which are free to the public.

Glee Clubs

In the beginning of the first semesters several try-outs are held for those who desire to belong to the Glee Clubs. The Girls' Club is under the management of Professor Muzzy. The Men's Glee Club is under the direction of Professor Bohanan. The clubs meet two to three times each week and full programs are learned, concerts are given at suitable dates in various cities of West Virginia. Only those who can give the time required and who have voices suitable for such work are selected.

Orchestra

An orchestra composed of the students who are taking instruction on the violin, and such other students as play suitable instruments, is under the direction of Professor Spaulding. Meetings are held once each week. No fee is required.

Band

A first class band is organized and under the direction of Professor Spaulding. Meetings are held once a week and public entertainments are given. This band is always an attraction at athletic games.

REQUIREMENTS FOR GRADUATION

COURSE ONE IN PIANO should be combined with either the Voice Course or the Violin Course. If taken alone the requirements for graduation will be as follows: At least two semesters of two lessons per week, under the Director, two hours per day practice on each lesson; to be able to play satisfactorily any scale, major or

minor, at 400 notes per minute, and at least two selections from each of the list of studies given in the course; an examination in Harmony One and Theory One. No graduating recital is required, but the candidate will be required to play before the music faculty, either with or without notes, such selections as the Director shall designate, giving at longest a week's notice for preparation. Records of such examinations are kept on file for future reference. A certificate of proficiency is given.

COURSE TWO IN PIANO. Course One completed in all of its requirements; a full examination in Harmony Two and Theory Two; completion of Academy or High School course. If a public recital is given, the examination before the music faculty will be omitted, but the candidate will be required to be able to play all scales in either single or double notes in major or minor keys with metronome as fast as 400 notes per minute up to 800 notes per minute. At least three semesters must have been under the Director and he will select at least six numbers from each of the works in the course which will be played before him. If a full recital is not given these will be played before the music faculty. If a recital is given, it will consist of at least an hour of playing — all memorized.

A diploma will be given for this course.

COURSE THREE IN PIANO. Courses One and Two or their equivalents must be completed before beginning this course. Upon completing this course an examination in Counterpoint will be given. The candidate must have completed at least two years work in College. The candidate will give a public recital of one and one-half hours length in such a manner as to win the approval of the public. All conditions having been met and passed, the candidate will be granted a diploma conferring the degree of Bachelor of Music.

VOICE. Candidates for graduation in this course must pass in addition to the regular work in the Vocal Course the following:

Harmony One and Two;

Theory One and Two;

Course One in Piano.

A diploma will be given for this course.

VIOLIN. In addition to the regular work in Violin the following will be required:

Harmony One and Two;

Theory One and Two.

PIPE ORGAN. Candidates must have completed Course One in Piano; Harmony Two; Theory Two; Counterpoint; and must give a satisfactory Organ Recital of one hour in length.

Candidates must also be able to play through the church service in an acceptable manner.

A diploma is given for this course.

THE LIBRARY OF MUSIC

To facilitate the work of the Department of Music, there has been added to its equipment a Library of Music, which embraces technical studies for the piano, progressive studies, selections comprising all grades, sonatinas, sonatas and concertos. In the Vocal Department is a wide range of vocalized solfeggioes, studies in flexibility, selections ranging from the easiest to the most difficult. In the Orchestral Department are exercises, studies and selections necessary for the advancement of the pupil.

The music will be loaned at the fee of two dollars per semester in each department. This is a great saving of money to the student, since no purchases of music are necessary.

SCHOOL OF EXPRESSION

PLAN OF INSTRUCTION

WALLACE B. FLEMING, Ph. D., President

MINNA L. HARDING, B. O., Director

The end and aim of all work is the harmonious growth of the whole being.—*Froebel.*

The instruction in the Department of Expression of Wesleyan College seeks the development of the individuality of each person, and all systems founded upon imitation are discouraged. Art is founded upon the laws of nature. Nature must not be confounded with habit. Habit produces mannerisms and colloquialisms, which our method seeks to eradicate.

The student is led to create ideals from a comprehensive study and keen appreciation of fine literature, and to form ideas, from which he gains the ability to think for himself. To express knowledge is to understand it more thoroughly; and the greater one's understanding the greater will be his accuracy and power in delivery.

The aim is to give that kind of oral practice which is becoming a regular part in training in schools and colleges, and in general to develop clear thinking, and successful speaking.

The work of the course will consist of exercises in various kinds of oral discussion correlated so far as may prove helpful with the more significant forms of written English.

The members of the course will have continual practice in discussing vital questions of the day, in conventions carried on in parliamentary order, general and class debate.

It is important that those whose aim is the ministry, law or public speaking should give attention to the subject of oratory. It is a mistake to suppose that excellence in speaking is simply a gift of nature and not the result of patient and persistent labor and study.

REQUIREMENTS FOR ENTRANCE

Previous training is not required for entrance to the courses. Advanced standing is obtained by certificate or examination.

REQUIREMENTS FOR GRADUATION

Candidates must possess the equivalent of an accredited high school course must appear on such recital programs as the Department requires and must complete the following course of study.

SOPHOMORE ORATORY

This course is required of all students in the College of Liberal Arts and of all who are candidates for graduation in the Course of Elocution or in the Course of Oratory. It is intended to be a study of the general principles of vocalization and interpretation and is preparatory to the more extended work in Elocution and Oratory.

It is possible to complete either of the courses in two years' study. All class recitations are one hour in length; private lessons or thirty minutes in length. Two class recitations per week and two private lessons per week are required throughout the junior and senior years; in the sophomore year two class recitations per week are required.

COURSES OF INSTRUCTION

Two hours per week through the year. A study of the general principles of vocalization and interpretation. Parliamentary drill in extemporaneous work. Selections, original orations, argumentation and debate. Required of all students. Two hours' credit.

Junior Year

VOCAL TRAINING. Breathing, tone placing, articulation, resonance, modulation of tone, rhythm, flexibility, co-ordination of mind and voice. Analysis of various selections from standard literature, and the emotional interpretation.

PANTOMIME. Studies in emotion, original impersonations, class work in scenes.

IMPROMPTU SPEAKING. Observation and theme, discussions of questions of the day, questions pertaining directly to the study of oratory leading up to extemporaneous debate.

CRITICISM. In class room and of public speakers.

Senior Year

CLASSICS. An exhaustive study of several selections, each from Browning, Dickens, Ibsen and Shakespeare.

DIALECTS. Irish, Scotch, Lancashire, Negro, and Italian.

HISTORY OF ORATORY. From the time of Pericles to present age.

BIBLE AND HYMN READING. Sympathetic interpretation.

PARLIAMENTARY DRILL.

DRAMATIZATION FROM THE CLASSICS.

ORIGINAL WORK. Each student is required to prepare and deliver an orginal production.

Throughout the course readings at the direction of the teacher will be required of the student to bring into play such talents as he may develop during the progress of the work.

Class Elocution

Those who do not wish to pursue the full course in Expression may select such branches as they desire, and special arrangements will be made to meet their needs.

Public Speaking

In view of the greatly increased interest in the cultivation of the various forms of Public Speaking and especially in view of the rapidly extending use of oral reading in connection with training in English, an addition has been made to the course of public speaking. This course is designed for training in the use of oral reading as a means of vitalizing English Literature.

Selections from standard literature are used for picture making and for applying vocal principles to speaking and reading, also for applying vocal principles in the simpler technique, modulation, enunciation, inflection, phrasing, emphasis, expressive tone form and tone quality.

Special attention is given to the correcting of individual vocal faults of the ordinary kind. Vocal defects due to organic conditions cannot be corrected in class instruction; they need private lessons.

Debating

Debating is a strong feature in the weekly Literary Societies, and contests are held annually with debating teams representing other colleges. The debating class of this Department studies the art of disputation, prepares briefs and is coached in impromptu argument, responses, etc. Analysis of noted forensics, class discussions.

Contests

Prize contests, described on another page, are held in oratory, debate and essay writing.

Recitals

All students in the regular work are required to appear at times on the recital programs which are held at stated intervals.

Library

A growing library is the property of the Department. It includes works of reference, examples of forensic eloquence, textbooks, etc. It is for the use of students in all courses of the Department.

For statement of fees and expenses, see page 22.

The Harding Cup Debate

The cup debate between the Wesleyan and Webster Debating Clubs occurs in the Fall, Winter and Spring terms. The following rules govern the contests for this beautiful trophy which has been offered by Miss Harding:

1. Only the Wesleyan and the Webster debating clubs of West Virginia Wesleyan College shall be eligible to participate in this contest.

2. There shall be three debates per year for three years in succession, one debate coming early in the school year, one soon after the Christmas vacation, and one near the close of the school year.

3. The club winning any debate shall hold the cup until a debate is won by the other club.

4. The cup shall become the permanent property of the club which shall win the greater number of debates in three years.

5. These rules shall be filed with the president of the College, who shall keep a record of the winners of each debate.

SCHOOL OF FINE ARTS

WALLACE B. FLEMING, Ph. D., President
LETA SNODGRASS, Principal

This School has a commodious and well-lighted apartment in College Hall. Casts, models and other appliances are provided in the studio. Students in this department are afforded the same privileges and opportunities as those in other schools of the College. The Principal of the School has had exceptional training under such teachers as Wiles, Dielman, Volk, Henrii, and Leonard.

The design of the School is to offer the study of Fine Arts as a part of a liberal education, to prepare students for a remunerative life-work, either as teachers, artists or as designers for magazines or trades. The field for such skill is constantly enlarging, and to those who have aptitude and desire in these directions there is scarcely a question concerning their ultimate success.

There are no examinations for admission to any of the classes in drawing. The beginner is given an opportunity to develop correct ideas of form and color, working from life and nature, and thereby is prepared to enter upon the more advanced courses. After securing a sufficient skill in the fundamentals, the student is led as much as possible in the line of his individual taste and ability.

A course in the graphic system of object drawing, which is adopted by this state for use in the free schools, has been arranged for teachers who desire to prepare themselves to teach this subject in connection with their regular work.

Household Design, Courses I, II, III, are required in Home Economics as correlative in Textiles, and will be very beneficial in that course.

Exhibitions of work are given each semester, that of the second semester, held during Commencement week, includes the work of the whole year.

GRADUATION

Diplomas are given to students who have completed the prescribed course in the School of Fine Arts and whose literary preparation is sufficient to admit them to freshman rank in the College.

COURSES OF STUDY

First Year

Free-hand drawing.
Light and shade in pencil and charcoal.
Object drawing.

SUMMER SCHOOL

It has been recognized that Wesleyan is an ideal place for study in summer. At no other time are the campus grounds quite so beautiful. Here the College buildings and equipment are available. The beautiful Buckhannon river adjoining the campus winds among the great over-arching trees, and fills the student's recreation hours with delight. The altitude, fourteen hundred feet above sea-level, dispels the summer lassitude of lower levels while it inspires an intensity of concentration and effort impossible in higher altitudes. Breezes from the neighboring mountains insure comfort. It is an ideal place to combine the pleasures of a vacation with the advantages of a Summer School.

The Summer School opens the first day after Commencement and continues eight weeks. The instruction is under the direction of regular members of the faculty of Wesleyan. Special attention is given to the needs of Normal students, those preparing for college entrance, those seeking to advance their college rank and those desiring instruction in music.

The educational standards for teachers are being constantly improved, and advancement in the profession is only possible for those whose preparation likewise advances. For eight or nine months of the year they are so engaged that new studies are precluded. Their promotion and their efficiency will largely be measured by what they do with the summer vacation. If they are to continue as teachers, there is no better investment than attendance at the Wesleyan Summer School. Ample opportunity is given for the study of new subjects, and for learning new and better methods of teaching. Special attention is given to those subjects in which teachers are examined by certificating boards. Persons who have never taught but desire to prepare themselves for teaching, may here prepare to the greatest possible advantage.

The Summer School is also intended for those who expect to enter College and are unprepared in one or more studies. They will be permitted to pursue such subjects as they desire in order to meet the entrance requirements. Sometimes one discovers after entering College that he is imperfectly grounded in a study and it is advisable to secure a better preparation. To such a person the

Summer School is of value. Students in College who wish to obtain advanced training, or who have failed in one or more courses, or who desire to pursue a special subject will find the Summer School to be of the finest service.

A special Bulletin is issued giving information concerning the Summer School.

GENERAL INFORMATION

Religious Life—

The College was organized by, and is under the patronage of those who believe that education should be permeated by religion, and that those who seek to develop and educate the intellect should at the same time give special attention to the maturing of strong Christian character. The College is positively Christian, but not sectarian. Several denominations are represented in the faculty and each professor is an active Christian. Students of all denominations and those without any church affiliations are equally welcomed and have equal privileges. All attend the daily chapel service which usually consists of singing, prayer and a short address. On Sunday all attend the churches of their denominational preference.

Buckhannon is a city of splendid churches and the pulpits are occupied by men of more than usual ability, as is fitting in a college town. The moral and religious atmosphere of the community is exceedingly wholesome. The citizens of Buckhannon and Upshur County never allowed an open saloon in the city or county. The absence of the many temptations to immorality and the many distractions that frequently characterize college towns renders Buckhannon an especially helpful place for young people away from home and attending school.

Recognizing that the fountain and inspiration of the noblest character is Jesus Christ the quiet but constant influence of the College tends to lead the students to a life of definite allegiance and loyalty to Him. During the year special meetings are held in the interest of the student religious life. These give helpful religious instruction and result in securing the definite decision of the unconverted.

The vast majority of the students are themselves very active Christian workers, and the religious life of the school finds delightful expression in the activities of the Christian Associations, the Homiletic Association, the Wesleyan Volunteer Band and various Bible study and mission study classes.

As an aid to the religious life of the school, Monday is kept as the weekly holiday instead of Saturday. Experience has shown that this promotes a proper use of Sunday and at the same time secures better work at the beginning of the week.

Social Life—

The social life in the College is ideal in many respects, because it is given careful consideration and is properly directed. The students are selected people; they have the worthiest ambitions, and desire to make the most of themselves that is possible.

Wesleyan is a co-educational institution; the sanest and most effective social development of both the young women and young men is promoted by their spending their college days together.

Wesleyan students are from the best homes. Only young people of high ideals and the worthiest ambitions care to attend a college under religious control. In class rooms, social gatherings, and public athletic events the students are freely together. The presence of members of the faculty is expected and is acceptable. The parlors of the Ladies' Hall are available one evening in the week for the young men to make social calls.

The school is fortunate in the ardent friendship of the citizens of Buckhannon whose moral and intellectual character is exceptionally high. The privileges of their homes and social gatherings afforded to the students while living here are to be esteemed. The College recognizes this, and is glad to promote social fellowship among the citizens and students. Every proper pleasure is encouraged and everything unwholesome or evil is prevented so far as is possible by careful oversight.

Former students of Wesleyan are unanimous in their testimony that their student friendships formed in college days and continued throughout the years that follow are among the most highly treasured friendships of their lives.

Rules Governing Conduct—

It is recognized that college students are not children; but it is also true that the student period is a formative period of life. In view of these facts, the faculty seek to direct the students in ways that are positive and constructive. They repress as little as possible;

they desire to form rather than to reform. Professors personally interest themselves in the lives of the students, seeking to make every one properly self-governing.

Every student enrolling at the College thereby agrees to obey the laws and rules of the institution. The students are trusted to respect this obligation and are subjected to discipline only when they violate it. In case of violation, the College seeks the help of parents to rectify the wrong, if private admonition is deemed insufficient. Gross wrong-doing results in summary dismissal. When the student refuses to heed admonition and counsel, or when it is clear that he is wasting his time or forming bad habits, or when his presence is an injury to the College, he is promptly dismissed.

In general all of the rules concerning conduct are comprehended in this statement, that students are always to deport themselves as ladies and gentlemen. Attention is called to the specific requirements:

1. Courteous conduct is required at all times.

2. Permission from the Dean must be secured before leaving the city during any term.

3. The use of tobacco is forbidden upon the campus or within any College building.

4. The use of cigarettes at any time is forbidden.

5. Attendance at the daily chapel service is required of all students.

6. No student is allowed to discontinue a course without permission from the Dean.

7. All students must prepare faithfully for, and attend, every exercise in the courses in which they are registered.

At the close of each term a report is sent to the parents or guardian of each student showing all his absences from required exercises and recording his standing in each of his studies.

SUGGESTIONS TO PARENTS

It is quite undesirable that students be absent while College is in session, for the purpose of visiting either at home or elsewhere. All such absences injure the standing of the student and embarrass the management. Those who live near Buckhannon are especially advised against this very common mistake. They should not in any case visit home every week.

Outside of the regular expense for tuition, board, laundry, books and stationery, there is little need of pocket money. This is a matter of much importance. Students are often harmed by being too generously supplied with money. It is a wholesome thing for a student to itemize his expense account, and parents are doing a real favor to require such an itemized account. Money may be left in charge of the faculty to be supplied the student as the parents may direct. Plainness in dress is encouraged.

Parents and guardians should write freely to the President or Dean in all matters pertaining to the students' welfare. The Dean of Women desires the fullest correspondence respecting lady students. Wesleyan is not in business to make money; her whole purpose is to help young people to the richest kind of life. In this great work the hearty co-operation of fathers and mothers will be appreciated.

It is the purpose of the school, while adhering to the most approved standard of modern learning, to make the moral and religious life of Wesleyan such that the parents may feel that their sons and daughters are safe under its influence. Too much importance cannot be given to the moral and religious conditions when determining the school to which young people shall be sent. At no period of life are these matters quite so important as during the college years. To develop Christian character, as well as to impart sound learning, is a true end of education.

SUGGESTIONS TO NEW STUDENTS

How to Reach Buckhannon—

Buckhannon is situated near the center of the state on the Baltimore and Ohio Railroad at the junction of the Pickens branch with the line between Grafton and Weston. It is but six miles from the

junction of the Baltimore and Ohio and the Coal and Coke Railroads at Sago. Students accessible to the main line of the Baltimore and Ohio Railroad will reach Buckhannon by way of Clarksburg or Grafton. Those in the southern part of the state will come by way of Charleston on the C. & C., connecting with the B. & O. either at Orlando or at Sago. All students should reach the College the day before the opening of the semester, in order that they may arrange for rooms and board.

On Arrival—

Those arriving on the day before the opening of the semester will be met at the station by committees of the Young Men's Christian Association and the Young Women's Christian Association, who will welcome them and conduct them to the College campus. Young women will report to the Dean of Women, at the Ladies' Hall, and young men to the President or the Dean at the College Hall. Information as to available places for rooms and boarding may be had at the Dean's office. The welcoming committee will give any other information as to arrangements.

How to Begin—

All students should report to the Dean on the opening day of the semester to matriculate and have their work assigned. He will give full information as to the necessary steps in beginning college work.

RULES AS TO WORK

Registration—

All students should be present at the opening day of the semester to matriculate and arrange their work and to secure their class cards. It is a loss to the student and an interruption to others to come late. Students who have been in attendance the previous term are required to secure their class cards not later than Wednesday, the opening day of the term. Failure to do so subjects the students to a fine of two dollars the first day and one dollar each additional day. Should illness prevent the student's attendance, a physician's certificate will be required.

Work in all departments of the College begins promptly at 8:00 o'clock A. M. on the first day of each term. All absences after this date until the student reports to his classes shall be counted as zero.

Examinations—

At such time as the professor may think it wise to do so, mid-term examinations are given, usually without previous notice to the student. At the close of the term examinations are held in all courses.

Grades are reported as follows: A plus equals 95-100, A equals 90-95, B plus equals 85-90, B equals 80-85, C plus equals 75-80, C equals 70-75, D equals below 70 and is a failure. A failure in which the grade is between 65 and 70 *may* be recorded by the instructor as a condition.

Conditions—

A student who has a condition recorded against him will observe the following regulation:

1. The conditioned student must confer with his instructor the opening week of the term following that in which he incurred the condition, and make all arrangements for taking a special examination covering the conditioned work.

2. Examinations for the removal of conditions are subject to the fees of other special examinations.

3. A condition must be removed during the term succeeding that in which it was made, otherwise it becomes a failure.

4. A student conditioned in a continuous study is admitted to the class until he takes the examination for the removal of the condition. Should he fail in that examination he cannot continue in that course.

5. No examination for the removal of a condition can result in a higher grade than C.

All work lost by reason of absence from class must be made up in the manner prescribed by the instructor.

Honors in Scholarship—

Students who have attained a grade of A in four-fifths of their work required for graduation and a grade not lower than B in

20 hours more will be graduated with high honor, *magna cum laude*. Students who have obtained a grade of A in three-fourths of the work required for graduation and a grade not lower than B in 20 hours more will be graduated with honor, *cum laude*.

Honors in scholarship will be recorded on the diploma of the student entitled to them, printed on the Commencement program and in the succeeding annual catalogue.

Prizes—

The *Recitation* Prizes. Two gold and silver medals are given annually to young men and young women who excel in reciting.

The *Alonzo Dow Anderson* Prize of $20, offered by Hon. L. C. Anderson, Welch, W. Va., to the most effective debater.

ESTIMATES OF EXPENDITURES

For Men—

Furnished rooms, including light and heat, cost from $1.00 to $2.00 a week for each student, two in a room. Board in a private family costs from $6.00 to $8.00 per week. Several students' boarding clubs are maintained. Many students board in these clubs and find them economical and pleasant. Club boarding costs from $5.00 to $7.00 per week. The Young Men's Christian Association is always provided with a list of acceptable rooming and boarding places. The President will be glad to assist in making such arrangements as may be desired.

These facts, together with the statement of expenses found on page 21, will show that the necessary expenses for a young man at Wesleyan may be tabulated as follows:

	Low	Medium	Liberal
Tuition and College Fees	$ 80.00	$ 80.00	$ 80.00
Room, 36 weeks	36.00	54.00	72.00
Board, 36 weeks	180.00	216.00	252.00
Laundry	15.00	20.00	25.00
Books, Stationery, etc.	10.00	15.00	20.00
Athletic Fee	5.00	5.00	5.00
	$326.00	$390.00	$454.00

For those who board themselves the above estimate may be somewhat reduced, but unless it is imperatively necessary, it is quite inadvisable for a student to use greater economy than is indicated by

the minimum estimate above. However, it should be remembered that earnest students who must make their own way usually find means to help in self-support, and that at Wesleyan there are no distinctions made on the basis of financial ability.

For Ladies—

The Ladies' Hall is the center of College life for young women. Here is provided a home for the students who reside outside of Buckhannon. They are under the immediate care and counsel of the Dean of Women and her Assistant and have the benefit of associations with one another under the most favorable conditions.

The Hall is located on the south side of the campus at a convenient distance from the other College buildings. Walks shaded by a grove of fine trees are at the front and side of the Hall. The building was erected especially to furnish a home for young women while in college. The appointments and furnishings are intended to contribute to their comfort, health and social well-being. Every room is provided with steam heat and is lighted by gas. Accommodations are afforded for eighty persons. A modern passenger elevator makes the upper rooms easily accessible. Fire escapes reaching every floor and several exits, reduce any possible danger to a minimum. The building contains in addition to the students' rooms, a reception room, parlor, library and reading room, a large dining room, spacious corridors and sanitary kitchen. Much care is used in the selections and preparation of the food provided. A sufficient variety, properly cooked and well served, is furnished. The Hall is not a source of profit to the College, its income being expended for the comfort and well-being of its residents.

The moral and religious atmosphere of the Hall has always been of the highest type. Nearly all the young women here are Christians. Bible study classes, Sunday School classes and other like services contribute to the promotion of spiritual life.

The Woman's Wesleyan College Club, Mrs. Frank Maxwell, President, maintains the furnishings and decorations of the Hall. Several thousand dollars have been expended, and everything is done that is necessary to make this College home all that it should be.

Regulations—

The requirements of those residing in the Hall are such as conduce to proper conduct, good health and the best educational results.

A continued disregard of these requirements subjects one to discipline.

All young women, not residents of the city, are required to live at the Hall. Exceptions to this rule may be made when the student has near relatives living in Buckhannon and desires to live with them; also when it is necessary for the student to room and board herself; and when all the rooms of the Hall are taken. Parents and young women are asked to note very carefully this requirement. No one is to make arrangements for rooming elsewhere without the approval of the President.

Furnishings—

All rooms in the Ladies' Hall are furnished with the exception of sheets, pillow cases, comforts and blankets for the beds and rugs for the floor. Students should bring the following articles: Umbrella, dressing gown, bath towels, bed room slippers, shoe bag, two laundry bags, hot-water bag, raincoat, overshoes, thick walking shoes, napkin ring marked with first and last names, napkins similarly marked, and blankets. Students usually bring inexpensive window curtains. Trunks should be marked with the full name.

Expenses at the Hall—

The Ladies' Hall does not yield a profit to the College; for years its income has been expended upon its management, thus giving to its residents the fullest return. Rooms may be had at prices from $1.00 to $1.50 per week, the difference being due principally to the location and attractiveness. All are comfortable and convenient. The rate for board is uniform and is $5.00 per week. By consulting page 21 it will be seen that an estimate of the necessary expenses of young ladies may be tabulated as follows:

	Low	Medium	Liberal
Tuition and College Fees	$ 80.00	$ 80.00	$ 80.00
Room, 36 weeks	36.00	45.00	54.00
Board, 36 weeks	180.00	180.00	180.00
Laundry	10.00	15.00	20.00
Books, Stationery, etc.	10.00	15.00	20.00
Athletic Fee	5.00	5.00	5.00
	$321.00	$340.00	$359.00

This estimate may be worked out still more carefully by consulting the statement of charges found on page 21. It will be noted that a different tuition is charged for those who take Music, Art, Elocution and the Laboratory Courses in Science. Expenses of a personal character depend upon the tastes and habits of the student. They should not be large. Extravagances and needless expenses are discouraged.

All charges for tuition, fees and room for each semester are due and payable at the beginning of the semester. The charges for board at the Ladies' Hall are payable monthly in advance. No deduction is made for an absence of less than two weeks, nor for absence the first or last week of the term. In a case of extended illness, the College will share the loss equally with the student.

Women rooming elsewhere may take their meals at the Hall but no reduction will be made for meals missed regularly or irregularly. Students will be charged for their visiting friends at the rate of thirty-five cents per meal, except dinners on Sundays and holidays, for which the charge will be fifty cents.

STUDENT AID

The Sterling Scholarships—

In February, 1909, Mr. Andrew Sterling, Fairmont, W. Va., by will gave the College five thousand dollars, the income from which is to be used to assist worthy students in securing an education. The income affords five annual scholarships, each worth fifty dollars; and preference is to be given to young men who are preparing for the Christian ministry.

The J. O. C. Scholarship—

Beginning September, 1916, the "Jesus Our Companion" class of the First Methodist Episcopal Sunday School of Parkersburg has been offering an annual scholarship of fifty dollars to aid some worthy young woman. The teacher, the president of the class and the president of the College confer in awarding this scholarship.

The Richards Scholarships—

In August, 1916, Mr. S. L. Richards ,of Weston, W. Va., by a gift of two thousand dollars established a fund which yields two scholarships of fifty dollars each. These are awarded to young people preparing for some form of religious life-work.

The Haymond Scholarships—

Mrs. Virginia Haymond, one of the College's greatest benefactors, gave a fund of twenty-five hundred dollars, the income of which is used to help worthy and needy students. This fund yields two scholarships of fifty dollars every year and every second year it yields a third scholarship.

The Standiford Scholarship—

In connection with the Half-Million Campaign, Mr. B. F. Standiford, of St. Mary's, W. Va., gave the college one thousand dollars which yields a scholarship of fifty dollars which is known as the Standiford Scholarship.

The Lee Davisson Memorial Scholarship—

As a beautiful memorial for Mr. Lee Davisson, a scholarship fund of one thousand dollars is being established by Mrs. Elizabeth Davisson and Mrs. Mary C. Collins, of Williamstown, W. Va. This will yield an annual scholarship of fifty dollars.

All scholarship awards are made on the basis of character, scholarship and need.

Loan Funds—

Hon. William J. Bryan in 1904 placed a fund at the disposal of the College whose income of twenty-five dollars annually is loaned to students in need.

The Board of Education of the Methodist Episcopal Church provides a yearly fund which is loaned to students who are recommended by the faculty. It is never a gift; and no one should seek it who does not so understand and who does not actually need it.

Self Help—

A limited amount of work about the College and city is offered to students who need assistance in order to remain in school. The College Press, a printing plant, owned and operated by the College for its own use, affords some help to students skilled in the printing art. Others conduct agencies of various kinds and perform such work as the citizens of Buckhannon may require. No young person having good health and sufficient energy should blame any one but

himself if he does not secure a college education. He can earn during vacation and term time enough to keep him in College, if he has no one dependent upon him. However, it is usually best for a young man to provide his funds before entering school in order that he may apply himself without interruption to the school work.

STUDENT ORGANIZATIONS AND ACTIVITIES

Christian Associations—

The Young Men's Christian Association and the Young Women's Christian Association are well organized and highly prosperous. They seek at the beginning of each term to aid students in securing their rooms and boarding places, in directing their companionship, their recreation and work. These Associations likewise maintain a number of Bible Study and Mission Study classes. On Thursday evening the young men hold a religious meeting in their hall, on Friday evening a similar service is conducted by the young women in their hall, and on Sunday evening a joint meeting is held which is of special helpfulness.

Wesleyan Volunteer Band—

The Wesleyan Volunteer Band is composed of young men and women of the College who expect to become foreign missionaries. Weekly meetings are held for study and inspiration, in preparation for their work.

Literary Societies—

A large majority of the students are members of either the Chrestomathean or the Excelsior Literary Society. Both organizations have commodious and well-appointed rooms in College Hall. They are provided with pianos and offer admirable facilities for entertainment and for exercise in public speaking. The literary society is a real factor in the student life at Wesleyan, affording a training of invaluable practical worth.

Publications—

The students publish the *Pharos,* a monthly magazine which chronicles the college events and affords a medium for essays, orations and the expression of student opinion. Likewise an annual,

the Murmurmontis, is edited and published by the students. The College Bulletin is published monthly. It is sent without charge to all who request it.

Lecture Course—

The Christian Associations maintain a lecture course of six to eight numbers each year. The best available talent is secured and during one's college years he has an opportunity to hear the leading scholars, orators, and musicians of the country.

Other lectures and entertainments are provided from time to time.

During the year the Schools of Music and Oratory offer several concerts, recitals and entertainments of superior value, not only to students in these departments, but to all others.

Musical Organizations—

The Oratorio Society is open to all who sing. The services of its members are in demand upon numerous occasions during the year, and at Commencement the Society gives an oratorio.

The College Glee Clubs are features of the College life greatly appreciated. Concert tours are made by the Glee Clubs in cities of West Virginia during the Christmas and Easter holidays.

A College band of twenty-eight pieces is under the leadership of Professor Spaulding. Regular practice is observed and on occasions public concerts are given.

An orchestra has also been organized. It, too, is under Professor Spaulding's leadership. The work done is characterized by the usual Wesleyan thoroughness and enthusiasm.

Homiletic Association—

The students who are preparing for the ministry, maintain an organization, meeting weekly. They present papers and hear addresses by invited guests and otherwise seek to be helpful to its members and the College.

GYMNASIUM

AUDITING ACCOUNTS

Upon a petition from a committee representing the various student organizations, the Board of Trustees, on June 16, 1913, approved the following resolution:

First— That the regulations of the Institution require accounts of all student organizations to be regularly inspected and that for this purpose an Auditing Committee be provided, said committee to consist of the Dean of the College to act as Chairman and Director of the committee, a second faculty member to be chosen by the faculty and a third member from the College student department to be chosen annually by the student body. This committee of three shall be assisted by one member of each organization in auditing the books of his own organization, should the organization or the committee so desire.

Second — Each Treasurer shall be required to present his books to the Chairman of the Auditing Committee not later than ten days after the expiration of his term of office, and any Treasurer neglecting to comply with this rule shall stand suspended as a student until he makes satisfactory report to the committee and to the organization to which he is responsible.

Third — That these requirements shall apply to all organizations of the school which handle money.

Fourth — That the requirements as adopted by the Faculty, Trustees and student body be posted on the Bulletin Board early in the fall term of 1913 and that they be included in the next and succeeding editions of the annual catalogue.

ATHLETICS

A sound body is essential to the highest efficiency in scholarship, and athletic exercise has a proper place in college life. General athletics are under the control of an Athletic Council, the faculty being represented by two instructors. R. W. Shumaker is director of intercollegiate athletics for men, and Miss Arnett has immediate charge of the Physical Instruction for women. An unexcelled athletic field affords opportunity for all outdoor sports, and several tennis courts are conveniently located on the campus. The new

gymnasium is so arranged as to be of equal service to men and women. Proper attention is given to football, basket-ball, baseball and track athletics. Each year strong and successful teams have been maintained while at the same time, there have been class teams of sufficient number to allow team work to all who desire it.

General Rules Governing Athletics—

1. No student will be permitted to be on any of the athletic teams or take part in any intercollegiate contest, either at home or away from home, until he has made a standing in studies and conduct satisfactory to the faculty committee.

2. After becoming a member of any team a student shall remain on it only so long as his work and conduct are satisfactory to the faculty committee.

3. Each member of any team must carry at least twelve hours' work, none of which is a repetition of work for which he has credit either here or in any other school.

4. Each student under twenty-one years of age, before he can become a member of any team, must have written permission from parent or guardian.

5. All match games and dates for match games shall be passed upon by the faculty, or by a committee appointed by the faculty.

6. All contracts and financial questions shall be handled by the Athletic Council, except that the schedule of games shall be subject to review under rule five.

7. Before each match game at home or trip from home a list of the players and substitutes shall be submitted to the faculty committee by the director of intercollegiate athletics.

8. Any member of a team who is absent from class without permission in order to play or practice, thereby severs his connection with the team.

9. A member of the team who drops out of school at the close of the athletic schedule without completing the scholastic work of the semester, is barred from further participation in the same branch of athletics, should he return to the College, until he has completed the scholastic work thus interrupted.

10. No new student will be approved for any intercollegiate game until complete record of his previous scholastic work is on file with the registrar.

11. No student who shall engage in any athletic contest on any professional or semi-professional team during the school year shall thereafter be eligible to represent Wesleyan in the same sport.

12. No student shall be eligible to play on the varsity team who was not a regularly enrolled student at Wesleyan the previous year, except such students as come directly from high schools, other secondary schools not connected with any college, or from colleges whose male enrollment is less than one hundred and fifty.

13. No student shall be eligible to play in any branch of intercollegiate athletics for more than four years.

14. No student shall be eligible to represent Wesleyan College in any intercollegiate athletic contest who does not have a minimum of eleven units of college entrance work completed.

15. No student shall play in a match game who has not enrolled within ten days after the opening of the term.

WESLEYAN VICTORY FUND

In March, 1919, West Virginia Wesleyan College received official notice that the General Education Board, New York, had made a conditional grant of $125,000 to the institution. In accordance with the conditions of the grant the College must secure $375,000 in additional resources.

It will be remembered that the College conducted a financial compaign for half a million dollars and that this campaign culminated in victory on June 6, 1917.

Since the completion of the half-million campaign a generous friend of the College has pledged $100,000 for the erection of a library building. This pledge was made payable within five years with the understanding that additional endowment would be secured so that the building would not become a burden to the institution.

The entire plan is now unified in a victory goal of $600,000, one hundred thousand of which are pledged for the new library and one hundred and twenty-five thousand are contained in the offer of the General Education Board. The remaining $375,000 are to be secured by June, 1920, at which time the College will commemorate the thirtieth anniversary of its founding.

This financial forward movement will enable the College to keep pace with its rapidly growing opportunity.

West Virginia is in the midst of a remarkable educational movement. High schools have been multiplying throughout the state in a marvelous way. A rapidly increasing host of young people will soon be seeking higher education and Methodism is responsible for the welfare of a large proportion of these young people. They must be given the type of education which produces men and women of sterling Christian character, efficient in the various vocations of life.

In West Virginia there are but very few colleges. No church college in the state is ministering more largely to the young people of West Virginia than Wesleyan. The institution is located two hundred and fifty miles from the nearest other institution of the denomination. These facts indicate an educational opportunity without parallel in the Methodist Episcopal Church.

The new library building is given in honor of the Wesleyan men who were soldiers in the great war. Many patriotic citizens will welcome the opportunity of making gifts in honor of our heroes.

The following objects are commended to the generosity of the friends of higher learning in West Virginia:

Endowment funds for various professorships.

Endowment funds in memory of loved ones.

Endowment funds for scholarships to inspire high school scholars to their best and to assist them in college.

Endowment funds to assist ministerial and missionary students.

Endowment funds for the purchase of books for the library.

A young men's dormitory.

It is hoped that the friends of Wesleyan throughout the state will enthusiastically and unitedly co-operate and enable the College to measure up to the vast opportunity that is at hand. Investments in this cause will abide perpetually working for God in the creation of noble Christian citizenship.

There are many ways in which gifts can be made.

They may be made in cash or securities for the College's immediate benefit.

A second way is the annuity plan. According to this plan, the donor transfers money to the College and the Trustees give him in return an Annuity Bond legally executed which yields to him a liberal per cent. income as long as he lives. At his death the interest ceases and the money remains with the College.

The advantages of this plan to the donor are: (a) The donor pays no taxes upon the money; (b) There are no fees or allowances paid to the executor or administrator; (c) The donor is free from all care or anxiety about the money; (d) The donor is enabled to become the executor of his own estate during his lifetime. The plan is absolutely safe, the Annuity Bond being secured by all the property and endowments of the College.

A third way is by will or bequest. The following form should be used:

(a) I give and bequeath to the Board of Trustees of the West Virginia Wesleyan College, a corporation organized under the

laws of West Virginia, and located at Buckhannon, West Virginia, its successors and assigns forever, the following land and premises, that is to say: (Here described the property); or

(b) I give and bequeath to the Board of Trustees of the West Virginia Wesleyan College, a corporation organized under the laws of West Virginia, and located at Buckhannon, West Virginia, the sum of $.....to be paid by my executor, or administrator, out of my estate within.....months after my decease, to be used by the Board of Trustees of said College in such manner as they deem best. (Or name some particular purpose.)

Members of the Methodist Episcopal Church and other friends of Christian learning who wish to share in any way in the advance of Wesleyan are invited to correspond with President Fleming.

(Name of post office and State.) *(State whether for April 1 or October 1.)*

STATE OF West Virginia
COUNTY OF Upshur ss. (

Before me, a in and for the State and county aforesaid, personally appeared Edward Rowlands, who, having been duly sworn according to law, deposes and says that he is the Business Manager of the West Virginia
(State whether editor, publisher, business manager or owner.)

Wesleyan College Bulletin and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

	Name of	*Post office address*
PUBLISHER	West Virginia Wesleyan College	Buckhannon, W. Va.
EDITOR	Rev. Wallace B. Fleming	Buckhannon, W. Va.
MANAGING EDITOR	Rev. Wallace B. Fleming	Buckhannon, W. Va.
BUSINESS MANAGERS	Edward Rowlands	Buckhannon, W. Va.

(If there are none, so state.)

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.)

West Virginia Wesleyan College, a non-stock corporation

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.)
There are none

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company of trustees, hold stock and securities in a capacity other than that of a *bona fide* owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is
